

MINISTRY FOR PRIMARY INDUSTRIES
IMPORTING COUNTRIES PHYTOSANITARY
REQUIREMENTS
THE EUROPEAN UNION

Status: Approved

Date: 26 June 2003

EXPORTERS ARE ADVISED TO CONFIRM THE
PHYTOSANITARY IMPORT REQUIREMENTS PRIOR TO
EXPORT FROM NEW ZEALAND

Amendment Record

Amendment No.	Date:	Nature of amendment:	Approved by:
1.	07 September 1999	Removal of requirement for import conditions to be entered on the phytosanitary certificate as additional declarations (section 2.3) and addition of new nursery stock species (section 4.4.2) – <i>Actinidia</i> spp. (plants), <i>Bergenia</i> spp. (tissue culture), <i>Clethra</i> spp. (plants), <i>Eucryphia</i> spp. (plants), <i>Geranium</i> spp. (tissue culture), <i>Lapageria</i> spp. (plants), <i>Michelia</i> spp. (plants) and <i>Pieris</i> spp. (plants).	SCO
2.	28 October 1999	Addition of requirements for <i>Rubus</i> spp. tissue culture nursery stock (section 4.4.2.222) and amendment to name of <i>Phaseolus</i> spp. (was <i>P. vulgaris</i> only) for seed for sowing (section 4.5.1.12). Addition to sections 3.4 and 4.4.1 regarding requirements for species of nursery stock not listed in the EPS.	SCO
3.	13 March 2000	Amendment to <i>Solanum tuberosum</i> (Fresh fruit and vegetables section 4.1) and <i>Malus</i> spp. (Nursery stock section 4.4.2) requirements.	SMN
4.	4 May 2001	Amendment to <i>Solanum tuberosum</i> (fresh fruit and vegetables section 4.1)	SCO
5.	14 February 2003	Renaming and reformatting of standard. Amendment to Section 2.6 re MPLs.	WJH
6.	31 March 2003	Amendment to Section 2.3 Phytosanitary Certificates, Fruit and Vegetable Requirements (Section 4.1), Cut Flowers and Foliage (Section 4.2), Nursery Stock Requirements (Section 4.3) and general reformatting of the ICPR	WJH
7.	11 April 2003	Amendment of ICPR with regards to the EU requirement to identify Additional declarations upon phytosanitary certificates	WJH
8.	26 June 2003	Reissue of ICPR	WJH

Amendment No.	Date:	Nature of amendment:	Approved by:
9.	29 July 2003	Addition of requirements for <i>Desmoschoenus spiralis</i> , <i>Isotoma fluviatile</i> , <i>Pseudowintera</i> spp., <i>Wahlenbergia</i> spp., <i>Athyrium</i> spp., <i>Ensete</i> spp., <i>Colocasia</i> spp., <i>Crassula</i> spp., <i>Echevaria</i> spp., <i>Kalanchoe</i> spp., <i>Sempervirens</i> spp. refer Section 4.3.2	WJH
10.	13 August 2003	Addition of requirements for <i>Felicia bergeriana</i> , refer Section 4.3.2	WJH
11.	2 October 2003	Addition of requirements for <i>Curcuma</i> spp. , refer Section 4.3.2	WJH
12.	23 December 2003	Addition of requirements for <i>Fagus</i> spp. <i>Leptinella</i> spp. <i>Loropetalum</i> spp. and <i>Rhodohypoxis</i> spp., refer Section 4.3.2	WJH
13.	12 March 2004	Sec 2.5 Addition of requirements from ANNEX II, of EU Commission Directive 2002/36/EC: <i>Harmful organisms whose intro. Into and whose spread within certain protected zones shall be banned if they are present on certain plants or plant products.</i>	SW
14.	5 April 2004	Amendment of requirements for Graminaceae, refer Section 2.6. Addition of requirements for <i>Polygala</i> spp., refer Section 4.3.2	WJH
15.	29 June 2004	Addition of requirements for <i>Ackama</i> spp., <i>Arundinaria</i> spp. (syn. <i>Fargesia</i> spp., <i>Pleiblastus</i> spp.), <i>Archontopheonix cunninghamiana</i> , <i>Arisaema</i> spp., <i>Arundinaria</i> spp. (syn. <i>Fargesia</i> spp., <i>Pleiblastus</i> spp.), <i>Beilschmiedia</i> spp., <i>Bromeliad</i> spp., <i>Collospermum</i> spp., <i>Dysoxylum</i> spp., <i>Eryngium</i> Royale, <i>Freycinetia</i> spp., <i>Gahnia</i> spp., <i>Habranthus</i> spp., <i>Marattia</i> spp., <i>Peperomia</i> spp., <i>Pomaderris</i> spp., <i>Stilbocarpa polaris</i> , <i>Thysanotis multiflorus</i> , <i>Trillium</i> spp., <i>Wasabi japonica</i> , refer Section 4.3.2. Inclusion of new member countries to the European Union, refer Section 1.3.	WJH
16.	6 September 2004	Addition of requirements for <i>Aloe thraskii</i> , <i>Archontopheonix alexandrae</i> , <i>Beaucarnea recurvata</i> , <i>Beaucarnea recurvata</i> syn. <i>Nolina recurvata</i> , <i>Brahea armata</i> , <i>Butia capitata</i> , <i>Chamaedorea elegans</i> syn. <i>C. humilis</i> , <i>Chamaedorea metallica</i> , <i>Chamaedorea seifrizii</i> , <i>Chamaerops humilis</i> , <i>Crassula</i> spp., <i>Cycas taitungensis</i> , <i>Cycas revolute</i> , <i>Dracaena Janet Craig</i> (cultivar of <i>Dracaena deremensis</i>), <i>Dracaena deremensis</i> , <i>Dracaena draco</i> , <i>Dracaena fragrans</i> , <i>Dyopsis baronii</i> , <i>Dyopsis decaryi</i> syn. <i>Neodyopsis decaryi</i> , <i>Howea forsterana</i> , <i>Jubaea chilensis</i> , <i>Livistona chinensis</i> , <i>Livistona decipiens</i> , <i>Lytocaryum weddellianum</i> syn. <i>Microcoelum weddellianum</i> , <i>Pachypodium lamerei</i> , <i>Philodendron bipinnatifidum</i> , <i>Phoenix canariensis</i> , <i>Phoenix reclinata</i> , <i>Phoenix roebelenii</i> , <i>Phoenix sylvestris</i> , <i>Ravenea rivularis</i> , <i>Rhapis excelsa</i> , <i>Rhopalostylis baurei</i> , <i>Rhopalostylis sapida</i> , <i>Sabal palmetto</i> , <i>Schefflera actinophylla</i> , <i>Strelitzia icolai</i> , <i>Syagrus romanzoffianum</i> , <i>Tibouchina organensis</i> , <i>Trachycarpus fortunei</i> syn. <i>Chamaerops fortunei</i> and <i>Washington robusta</i> , refer Section 4.3.2	WJH

Amendment No.	Date:	Nature of amendment:	Approved by:
17.	1 February 2005	Amendment of MAF contact details Sections 1.1, 1.2, 2.3 and 2.4. Minor reformatting of document.	WJH
18.	20 February 2005	Addition of requirements for <i>Helianthus salicifolius</i> , and removal of Additional Declaration requirements 8,15,16 for <i>Lavandula</i> spp., refer Section 4.3.2.	WJH
19.	24 May 2005	Addition of requirements for <i>Arabis procurrens</i> , <i>Cosmos</i> spp, <i>Sedum spectabile</i> , <i>Trachystemon orientalis</i> . Correction of spelling for <i>Pleioblastus</i> , refer Section 4.3.2	WJH
20.	11 July 2006	Amendment of additional declaration requirements for <i>Citrus</i> refer Section 4.1.1. Addition of requirements for <i>Agave</i> spp., <i>Apodasmia similes</i> , <i>Dianella caerulea</i> , <i>D. tasmanica</i> , <i>D. revolute</i> , <i>Eucomis</i> spp. <i>Gardenia augusta</i> , <i>Gardenia radicans</i> syn. <i>G. jasminoides</i> , <i>Melicytus crassifolius</i> , <i>Vriesea</i> spp.	WJH
21.	7 December 2006	Addition of requirements for <i>Astartea</i> spp; <i>Brunia</i> spp; <i>Chlorophytum comosum</i> ; <i>Erica</i> spp; <i>Kniphofia</i> spp; <i>Laurus nobilis</i> ; <i>Mimetes</i> spp; <i>Paranomus</i> spp.	SW
22.	22 March 2007	Amendment of MAF contact details Section 1.1	SW
23.	7 December 2007	Addition of requirements for <i>Anaphaloides bellidioides</i> ; <i>Ascarina lanceolata</i> ; <i>Disphyma australe</i> ; <i>Disphyma papillatum</i> ; <i>Elaeocarpus dentatus</i> ; <i>Elingamita johnsonii</i> ; <i>Freycinetia banksii</i> ; <i>Hedycarya arborea</i> ; <i>Hydrocotyle elongate</i> ; <i>Jovellana repens</i> ; <i>Jovellana sinclarii</i> ; <i>Leptostigma setulosa</i> ; <i>Lobelia anceps</i> ; <i>Lygodium articulatum</i> ; <i>Melicope mantelli</i> ; <i>Melicope simplex</i> ; <i>Melicope ternate</i> ; <i>Mentha cunninghamii</i> ; <i>Microsorium scandens</i> ; <i>Myrsine aquilona</i> ; <i>Ozothamnus leptophylla</i> ; <i>Pouteria</i> (syn. <i>Planchonella</i>) <i>costata</i> ; <i>Rhabdothamnus solandri</i> ; <i>Ripogonum scandens</i> ; <i>Vittadinia australis</i>	SW
24.	23 April 2008	Addition of requirements for <i>Lepidothamnus intermedius</i> ; <i>Lepidothamnus laxifolius</i> ; <i>Manoao colensoi</i>	SW
25.	24 April 2008	Addition of new member countries to Sec 1.3 Bulgaria and Romania.	SW
26.	10 July 2008	Addition of requirements for <i>Cosmos atosanguineus</i> . Amendment of additional declarations for <i>Cosmos</i> spp. Refer section 4.3.2.	LK
27.	28 August 2008	Addition of requirements for <i>Gentiana triflora</i> & <i>Gentiana scabra</i>	LK

Amendment No.	Date:	Nature of amendment:	Approved by:
28.	16 January 2009	Addition of requirements for <i>Gratiola sexdentata</i> , <i>Lantana camara</i> , <i>Mazus novaezealandiae</i> , <i>Mimulus repens</i>	SW/LK
29.	19 February 2009	Addition of requirements for <i>Zantedeschia</i> bulbs. Amendment of requirements for <i>Anthurium crassinervium</i> bulbs.	SW/IV
30	5 March 2009	Addition of requirements for <i>Dierama</i> corms.	GI/IV
31	12 May 2009	Amendment of lists of harmful organisms, Commission Directive 2009/7/EC. Updated import requirements for <i>Dendranthema</i> spp and <i>Lycopersicon lycopersicum</i> plants for planting. Section 4.3.2	GI
32	26 June 2009	Update of requirements for <i>Dianthus</i> spp. Section 4.3.3. Clarification of general requirements Section 1.2, 2.4, 3.3 and 4.3.2 The import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19 in section 4.3.3. (FERA correspondence 9 June 2009), however, if unsure contact MAFBNZ Plant Exports. Minor spelling corrections, addition of species to specific commodities and clarification of specific commodity additional declarations. Section 4.3.2 Addition of EU Directive 2000 conditions and alignment with ICPR additional declarations. Section 4.3.3	GI
33	24 August 2009	Revision to botanical name of Gramineae to Poaceae (Gramineae) as per EU Directive 2009/74/EC	JW
34.	4 September 2009	Addition of the requirements for <i>Freesia</i> spp. bulbs. Refer section 4.3.2. Correspondence with the Netherlands Plant Protection Service and MAFBNZ, 2003. <i>Phragmites</i> spp. (Poaceae = Gramineae), PROHIBITED commodity.	GI
35.	13 October 2009	Import requirements for France for <i>Rosa</i> budwood/cuttings. http://fcs.maf.govt.nz/webtop/drl/objectId/090101b3804d87c0 Import requirements for <i>Sandersonia</i> tubers to the Netherlands . http://fcs.maf.govt.nz/webtop/drl/objectId/090101b3804dc400	GI

Amendment No.	Date:	Nature of amendment:	Approved by:
36.	13 January 2010	Import requirements for <i>Pinus</i> spp. and <i>Pseudotsuga menziesii</i> seed and cones for propagation. EU Directive 2007/433/EC, (Plants are prohibited).	GI
37.	24 March 2010	Clarification of the requirements for Palmae. EU Directive Annex IV A I No.37 and 37.1	GI
38.	28 May 2010	Addition of import requirements for bulbs of <i>Cyrtanthus elatus</i> and <i>Clivia</i> spp.. EU Directive additional declarations for bulbs.	GI
39.	29 June 2010	Amended import requirements for <i>Echeveria</i> spp. plants for planting and tissue cultures.	GI
40.	2 July 2010	Import requirements for Paeony spp.. EU Directive 2009	GI
41.	29 July 2010	Note: Switzerland's import requirements alignment with EU Directive 2009.	GI
42.	7 October 2010	Addition of import requirements for <i>Actinidia</i> spp. tissue cultures. EU Directive 2009.. See sections 3.3 and 4.3	GI
43.	13 October 2010	Addition of import requirements for <i>Eucomis comosa</i> tissue cultures, <i>Geum coccineum</i> & <i>Polemonium raptans</i> . EU Directive 2009.. See section 4.3.	VK
44.	2 May 2011	Referencing Tree ferns to the EU Compliance Programme and Registration. See section 4.3.2. Addition of import requirements for <i>Actaea</i> spp. tissue cultures 4.3.2.	CB
45.	18 May 2011	Section 4.3.2. additional declarations for bulbs of <i>Cyrtanthus elatus</i> bolded to indicate that the declarations are consignment dependent.	CB
46.	04 July 2011	Section 3.4.2, addition of a pre-export treatment option for the export of seed for sowing to the UK.	CB
47.	29 August 2011	Addition of import requirements for <i>Agave</i> spp. and <i>Beschorneria</i> spp. tissue cultures, EU Directive 2009. See section 4.3.2	CB
48.	26 September 2011	Section 2.4 notification that France requires phytosanitary certificates to be signed in ink ("wet signature") rather than in an electronic form. Section 4.3.3 clarification of condition No. 34 of Annex IV A I..	CB
49.	14 November 2011	Section 4.3.2 Updated Specific commodity requirements for <i>Dianella</i> spp	VK
50.	29 November 2011	Section 4.3.2 updated specific tissue culture commodity requirements for <i>Cosmos</i> spp.	CB
51.	10 January 2012	Section 2.4 Where a Phytosanitary Certificate is issued after a consignment has been dispatched the inspection date must be stated in the Additional Declaration section of the Phytosanitary Certificate. Section 4.3.2 updated <i>Actinidia</i> spp. requirements	CB

Amendment No.	Date:	Nature of amendment:	Approved by:
		for whole plants and Section 4.3.3 updated the definition of a “nursery.”	
52.	01 February 2012	Section 4.3.2 updated tissue culture requirements for <i>Cyclamen coum</i> and <i>Leucanthemum</i> spp .	CB
53.	13 March 2012	Section 2.4 – Clarification that AD’s must reference the EC Plant Health Directive and inclusion of a link to a document containing illustrative examples. Section 3.4.2 – addition of a note regarding Fera’s treatment of seed more than 6 months old and less than 6 months old. Sections 4. 1 to 4.4 – relevant positions in EC Plant Health Directive Annex IV and Annex II added to all additional declarations. Section 4.3. 2 updated specific commodity requirements for <i>Hibiscus</i> spp. and <i>Myosotidium hortensia</i> .	CB
54	30 July 2012	Update of MAFBNZ to MPI (Ministry for Primary Industries) to reflect ministry name change on 30 April 2012 Clarification of the additional declarations required (only a reference to the relevant Annex of EC Plant Health Directive 2000/29/EC) and explanations of what these declare. Section 4.3.2: Removal of AD 4 as a requirement for <i>Zantedeschia</i> bulbs following communication with EC Plant Health Directorate. Correction of AD for Annex IV.A, point 34 (b) to Annex IV.A.I, point 34 (b). <i>Hibiscus trionum</i> ; Removal of AD 7 and addition of Ads 8,9 and 15 Addition of nursery stock of <i>Chaenomeles</i> spp., <i>Crataegus</i> spp., <i>Cydonia</i> spp. and <i>Eriobotrya</i> spp. as prohibited due to <i>Monilinia fructicola</i> Addition of AD requirements for <i>Fortunella</i> spp., <i>Poncirus</i> spp., <i>Amelanchier</i> spp., <i>Cotoneaster</i> spp., <i>Mespilus</i> spp., <i>Photinia davidiana</i> , <i>Pyracantha</i> spp. <i>Sorbus</i> spp and <i>Lycopersicon esculentum</i> . Addition of AD regarding <i>Anoplophora chinensis</i> , for specified species. Removal of requirements from Annex IV.A.II as this is plants/plant products originating in the European Community Correction of references to Annex IV.A.II to the equivalent AD in Annex IV.A.I (<i>Fragaria</i> spp., <i>Poncirus</i> spp., <i>Populus</i> spp. and <i>Tulipa</i> spp.) Addition of reference to ‘first’, ‘second’ or ‘third’ indent, where required	NJ
55.	13 August 2012	Clarification of additional declaration wording where required.	CB

Amendment No.	Date:	Nature of amendment:	Approved by:
56	11 September 2012	Updated Section 2.3 Exemption for prohibited items (derogation) and Section 4.3.3 Additional Declarations 2 & 8	VK
57	18 December 2012	<p>Section 4.3.2 Update of the requirements for live pollen and plants for planting of <i>Actinidia</i> Lindl (kiwifruit) according to EU Commission Implementing Decision of 5 December 2012, as regards measures to prevent the introduction into and the spread within the Union of <i>Pseudomonas syringae</i> pv. <i>actinidiae</i> Takikawa, Serizawa, Ichikawa, Tsuyumu & Goto (Notified under document C(2012) 8816) (2012/756/EU).</p> <p>A summary of the EU Decision 5/12/12 regarding live pollen and plants for planting other than seeds:</p> <p>A phytosanitary certificate is required and shall include the information that one of the following is fulfilled: that the products are from:</p> <ul style="list-style-type: none"> • Pest free country; or • Pest free area established under ISPM No.4; or • Pest free place or pest free production site established under ISPM No.10, surrounded by a zone with a radius of at least 500m where official inspections were carried out; or • Pest free place of production established under ISPM No. 10, surrounded by a zone with a radius of 4500m, where official inspections, sampling and testing have been carried out. 	LZ
58	25 October 2013	<p>Additional statement added to section 1.2, to clarify scope of ICPR.</p> <p>Additional statement specifying mandatory phytosanitary inspection date in all phytosanitary certificates issued for exports of New Zealand product to France, 2.4</p> <p>Changed heading of section 2.7 to MPI Specified Maximum Pest Limits (MPL)</p>	JN
59	18 November 2013	Additional statement added to section 3.4.1, specifying the requirements for exporting seeds of crops which have been treated with fipronil.	JN
60	27 February 2014	Additional statement added to section 4.3.1, under aquatic plants, specifying the requirements for exporting <i>Ceratophyllum</i> to the The Netherlands.	JN
61	22 May 2014	<p>Added requirements for <i>Malus domestica</i>, section 4.1.1.</p> <p>Additional section for wood packaging, section 2.10.</p> <p>Updated plant exports contact details, section 1.</p>	SM

Amendment No.	Date:	Nature of amendment:	Approved by:
62	10 October 2014	Updated ICPR in accordance with Directive 2014/78/EU, including the removal of and addition of quarantine pests. Quarantine pest list also reformatted. Additional requirement for <i>Hibiscus syriacus</i> to the Netherlands. Addition of requirements for Capsicums, section 4.1. Addition of Additional Declarations required for <i>Actinidia</i> spp. budwood, section 4.3.2.	SB/SM
63	12 February 2015	Additional requirements for the export of tomato seed (<i>Lycopersicon esculentum</i> (syn. <i>Solanum lycopersicum</i>)) section 4.1.1.	SM
64	28 May 2015	Added requirements for plants specified in Appendix 2 requiring an additional declaration for <i>Xylella fastidiosa</i> , section 4.3.2.	SM
65	24 July 2015	Clarified the requirements for <i>Actinidia</i> spp. nursery stock.	PL/SM
66	11 August 2015	Added requirements for inspection of consignments being exported to the United Kingdom (UK) and Spain to not be inspected more than 14 days before export, refer to section 2.4.	SM

DISCLAIMER

The information in this document is provided on the following basis. The phytosanitary requirements found in this document may be used as the basis of export certification. However, requirements may be changed by importing countries at any time at short notice or with no notice to New Zealand. This information is provided strictly on the basis that the Crown, the Ministry for Primary Industries (MPI), its statutory officers, employees, agents and all other persons responsible for or associated with the compilation, writing, editing, approval or publication of the information:

1. Disclaim any and all responsibility for any inaccuracy, error, omission, lateness, or any other kind of inadequacy, deficiency or flaw in, or in relation to, the information

and

2. Without limiting (1) above, fully exclude any and all liability of any kind on the part of all of them, to any person or entity that chooses to rely on this information

Compliance with this document is not to be taken as a guarantee that any particular goods will be granted access to any overseas market.

1. General Information

For enquires about this ICPR email Plant Exports:

plantexports@mpi.govt.nz

To help Plant Exports process your email please record in the subject line of your email descriptive keywords which are relevant to your enquiry i.e. ICPR enquiry-Country-specific details.

For urgent enquiries phone or email Plant Exports

Telephone: +64 4 894 5693

Email: plantexports@mpi.govt.nz

1.2 Scope

The requirements listed in this ICPR apply to product of New Zealand only, unless specifically stated.

As there are no New Zealand legislative requirements for certification of exported plant products, the technical phytosanitary requirements are determined by the importing country for plant produce being imported into their country. In this respect, ICPRs are MPI's summary of the importing country's legal requirements and thus forms a basis upon which export phytosanitary certification is provided.

Where an importing country operates on the basis of issuing import permits to their importers, the import permit conditions take precedence over any technical conditions contained in the MPI ICPR for that country.

This ICPR specifies the European Union's phytosanitary requirements for the stated commodities and commodity classes only. If a commodity or commodity grouping is not identified within this ICPR exporters should contact, if unsure:

- The Ministry for Primary Industries - Plant Exports.
Please note the determination of phytosanitary requirements is undertaken on a cost recovery basis. The import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

Please note, the determination and provision of phytosanitary requirements, for a commodity not identified within an ICPR, is undertaken on a cost recovery basis. A link to the list of Plant Exports Fees and Charges is available on <http://www.biosecurity.govt.nz/regs/exports/plants/fees>

Users of this document are strongly advised to review all sections of the ICPR for the determination of a commodity's phytosanitary requirements.

1.3 Member Countries of the European Union (27 countries at the 25th May 2009)

Austria (A)	Latvia* (LV)
Belgium	Lithuania* (LT)
Bulgaria*	Luxembourg
Cyprus* (CY)	Malta* (M)
Czech Republic* (CZ)	Netherlands
Denmark (DK)	Poland* (PL)
Estonia* (ES)	Portugal (including Azores) (P)
Finland (FI)	Romania*
France (F)	Slovenia* (SL)
Germany	Spain (including Canary Islands) (E)
Greece (EL)	Sweden (S)
Hungary* (HU)	The Slovak Republic* (SV)
Ireland (IRL)	United Kingdom (Great Britain including Northern Ireland, Isle of Man and Channel Islands) (UK)
Italy (I)	

Note. An asterisk signifies the country has recently joined the European Union. Exporters are advised to confirm requirements for these countries prior to shipping.

Note. Switzerland is not a member of the EU, however Switzerland's plant health regulation is to a wide extent identical to the EU regulations- EU directive 2000/29/EC (<http://eur-lex.europa.eu/en/index.htm>)

1.4 Phytosanitary Legislation

- Council Directive 2000/29/EC of 8 May 2000 on protective measures against the introduction into the Community of organisms harmful to plants or plant products and against their spread within the Community.
- Commission Directive 2002/36/EC amending Annexes to Council Directive 2000/29/EC
- Council Directive 2002/89/EC of 28 November 2002 amending Directive 2000/29/EC
- Commission Directive 2009/7/EC amending 2000/29/EC
- Commission Directive 2009/74/EC of 26 June 2009 amending Council Directives 66/401/EEC, 66/402/EEC and 2002/57/EC.
- Commission Directive 2007/433/EC
- Commission Decision 2008/840/EC of 7 November 2008
- Commission Directive 2008/61/EC of 17 June 2008
- Commission Implementing Directive 2014/78/EU amending Annexes I, II, III, IV, V to Council Directive 2000/29/EC.

2. General Requirements

2.1 Definitions

Plants

Living plants and specified living parts thereof, including seeds. Living parts of plants include:

- fruit, in the botanical sense, other than that preserved by deep freezing
- vegetables, other than those preserved by deep freezing
- tubers, corms, bulbs, rhizomes
- cut flowers
- branches with foliage
- cut trees retaining foliage
- leaves and foliage
- plant tissue cultures
- live pollen
- budwood, cuttings, scions

Seeds

Seeds in the botanical sense, other than those not intended for planting

Plant products

Products of plant origin, unprocessed or having undergone simple preparation, in so far as these are not plants

Planting

Any operation for the placing of plants to ensure their subsequent growth, reproduction or propagation

Plants intended for planting

Plants which are already planted and are intended to remain planted or to be replanted after their introduction or plants which are not planted at the time of introduction, but are intended to be planted thereafter

Harmful organisms

Pests of plants or of plant products, which belong to the animal or plant kingdoms, or which are viruses, mycoplasmas or other pathogens

2.2 Phytosanitary Import Permits

Phytosanitary import permits are not required for plants or plant products to enter the European Union.

2.3 Exemption for Prohibited Items (derogation)

Under Commission Directive 2008/61/EC of 17 June 2008, certain prohibited organisms, plants, plant products and other objects may be introduced or moved within the European Union or certain protected zones thereof, for trial or scientific purposes. This directive acts as a special permit (letter of authority) which may be used by European Union member states for the above trial / scientific purposes.

New Zealand exporters (commercial or scientific institutions), wishing to send prohibited material to the European Union need to obtain a letter of authority from the importer in the country to which the material is being sent. The importer in the destination country must apply to the phytosanitary authorities of that country in order to obtain the letter of authority. The letter of authority will specify conditions from which the consignment is exempted.

Prior to issuance of the phytosanitary certificate, certifying officers are to forward the letter of authority to the Ministry for Primary Industries.

The phytosanitary certificate accompanying any consignment imported under a letter of authority (Commission Directive 2008/61/EC) must include the Additional Declaration as per the statement on the Letter of Authority.

2.4 Phytosanitary Certificates

Refer to the commodity specifically to identify whether a phytosanitary certificate is required for the commodity to be exported.

Additional declarations must reference the EC Plant Health Directive 2000/29/EC on the phytosanitary certificate.

For illustrative examples on how to document additional declarations please refer to:

http://eagri.cz/public/web/file/76929/Leaflet_additional_declaration_EN.pdf

If unsure of the phytosanitary requirements for specific commodities in these sections, please contact MPI. However, the import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

Phytosanitary certificates must not be issued more than 14 days prior to export and for the United Kingdom and Spain, inspection must not be carried out more than 14 days before the date of export.

Where a Phytosanitary Certificate is issued after a consignment has been dispatched the inspection date must be stated in the **inspection date field** of the Phytosanitary Certificate.

The phytosanitary inspection date must be stated on all phytosanitary certificates issued for the export of New Zealand product to France.

Notes:

- I. As of 15/09/2011 France requires phytosanitary certificates to be signed in ink (“wet signature”) rather than in an electronic form. The certificates must be verified by the Independent Verification Agency (IVA). Verified certificate numbers can be forwarded to MPI Plant Exports (either by the exporter or the IVA) to be printed out, countersigned and couriered back to the exporter.
- II. Switzerland requires phytosanitary certificates
- III. All postal consignments must have the original Phytosanitary Certificate attached to the outside of the package on entry into the EU.

2.5 Quarantine Pests

The following lists of pathogens and pests are prohibited from entering the European Union if they are present on the plants or plant products specified for that pest.

Insects, mites and nematodes at all stages of their development

<i>Acleris</i> spp. (non-European)	<i>Diabrotica barberi</i>
<i>Acrobasis (Numonia) pyrivorella</i>	<i>Diabrotica undecimpunctata howardi</i>
<i>Aculops fuchsiae</i>	<i>Diabrotica undecimpunctata undecimpunctata</i>
<i>Agrilus anxius</i>	<i>Diabrotica virgifera virgifera</i>
<i>Agrilus planiplennis</i>	<i>Diabrotica virgifera zeae</i>
<i>Aleurocantus</i> spp.	<i>Diaphorina citri</i>
<i>Amauromyza maculosa</i>	<i>Ditylenchus destructor</i>
<i>Anomala orientalis</i>	<i>Ditylenchus dipsaci</i>
<i>Anoplophora chinensis</i>	<i>Eotetranychus lewisi</i>
<i>Anoplophora glabripennis</i>	<i>Eotetranychus orientalis</i>
<i>Anoplophora malasiaca</i>	<i>Eutetranychus orientalis</i>
<i>Anthonomus bisignifer</i>	<i>Globodera pallida</i>
<i>Anthonomus eugeni</i>	<i>Globodera rostochiensis</i>
<i>Anthonomus (Tachypterellus) quadrigibbus</i>	<i>Helicoverpa armigera</i>
<i>Anthonomus signatus</i>	<i>Helicoverpa (Heliopsis) zea</i>
<i>Aonidella citrina</i>	<i>Heliopsis armigera</i>
<i>Aphelenchoides besseyi</i>	<i>Hirschmanniella</i> spp.
<i>Arrhenodes minutes</i>	<i>Hishomonus phycitis</i>
<i>Aschistonyx eppoi</i>	<i>Leucaspis japonica</i>
<i>Bemisia tabaci</i> (non-European populations)	<i>Liriomyza huidobrensis</i>
vectored viruses such as:	<i>Liriomyza sativae</i>
a. <i>Bean golden mosaic geminivirus</i>	<i>Liriomyza trifolii</i>
b. <i>Cowpea mild mottle carlavirus</i>	<i>Listronotus bonariensis</i>
c. <i>Lettuce infectious yellows closterovirus</i>	<i>Longidorus diadecturus</i>
d. <i>Pepper mild tigré geminivirus</i>	<i>Margarodes</i> , non-European species, such as:
e. <i>Squash leaf curl geminivirus</i>	a. <i>Margarodes vitis</i>
f. <i>Euphorbia mosaic geminivirus</i>	b. <i>Margarodes vredendalensis</i>
g. <i>Florida tomato geminivirus</i>	c. <i>Margarodes prieskaensis</i>
<i>Bursaphelenchus xylophylis</i>	<i>Meloidogyne chitwoodi</i>
<i>Carposina niponensis</i>	<i>Meloidogyne fallax</i>
<i>Choristoneura</i> spp. (non-European)	<i>Monochamus</i> spp. (non-European)
Cicadellidae (non-European) known to be	<i>Myndus crudus</i>
vectors of <i>Xylella fastidiosa</i> , such as:	<i>Nacobbus aberrans</i>
a. <i>Carneiocephala fulgida</i> ,	<i>Naupactus leucoloma</i>
b. <i>Draeculacephala minerva</i>	<i>Oligonychus perditus</i>
c. <i>Graphocephala atropunctata</i>	<i>Opogona sacchari</i>
<i>Circulifer haematoceps</i>	<i>Parasaissetia nigra</i>
<i>Circulifer tenellus</i>	<i>Paysandisia archon</i>
<i>Conotrachelus nenuphar</i>	<i>Pissodes</i> spp. (non-European)
<i>Cydia (Grapholita) inopinata</i>	<i>Popillia japonica</i>
<i>Cydia (Enarmonia) packardi</i>	<i>Premnotrypes</i> spp. (non-European)
<i>Cydia (Enarmonia) prunivora</i>	<i>Pseudopityophthorus minutissimus</i>
<i>Daktulosphaira vitifoliae</i>	<i>Pseudopityophthorus pruinus</i>
<i>Dendrolimus sibiricus</i>	<i>Radopholus citrophilus</i> Huettel

Radopholus similis
Rhizococcus hibisci
Rhynchophorus palmarum
Scaphoideus luteolus
Scirtothrips aurantii
Scirtothrips dorsalis
Scirtothrips citri
Scolytidae spp. (non-European)
Scrobipalopsis solanivora.
Spodoptera eridania
Spodoptera frugiperda
Spodoptera littoralis
Spodoptera litura
 Tephritidae (non-European) such as:
 a. *Anastrepha fraterculus*
 b. *Anastrepha ludens*
 c. *Anastrepha obliqua*
 d. *Anastrepha suspensa*
 e. *Bactrocera (Dacus) cucurbitae*
 f. *Bactrocera (Dacus) dorsalis*
 g. *Bactrocera (Dacus) tryoni*
 h. *Bactrocera (Dacus) tsuneonis*
 i. *Bactrocera (Dacus) zonata*

Bacteria

Candidatus Liberibacter spp. (causal agent of Huanglongbing disease of citrus/citrus greening)
 Citrus variegated chlorosis
Clavibacter michiganensis spp. *insidiosus*
Clavibacter michiganensis spp. *michiganensis*
Clavibacter michiganensis subsp. *Sepedonicus*
Erwinia amylovora
Erwinia chrysanthemi pv. *dianthicola*
Erwinia stewartii
Pseudomonas caryophylli
Pseudomonas syringae pv. *persicae*

Fungi

Alternaria kikuchiana and *A. mali* r (non-European pathogenic isolates of *A. eticulat*)
Anisogramma anomala
Apiosporina morbosus
Atropellis spp.
Botryosphaeria berengeriana f. sp. *Piricola* (*Guignardia citricarpa*) all strains pathogenic to Citrus)
Ceratocystis fagacearum
Ceratocystis fimbriata f. spp. *Platani*
Ceratocystis virescens (*C. coerulescens*)
Chrysomyxa arctostaphyli
Colletotrichum acutatum
Cronartium spp. (non-European)
Cryphonectria parasitica
Deuterophoma (Phoma) tracheiphila
Diaporthe vaccinii
Didymella ligulicola
Elsinoe spp.
Endocronartium spp. (non-European)
Fusarium oxysporum f. sp. *Albedinis*
Guignardia laricina
Guignardia piricola

 j. *Dacus ciliatus*
 k. *Epochra canadensis*
 l. *Pardalaspis cyanescens*
 m. *Pardalaspis quinarina*
 n. *Pterandrus rosa*
 o. *Rhacochlaena japonica*
 p. *Rhagoletis cingulata*
 q. *Rhagoletis completa*
 r. *Rhagoletis fausta*
 s. *Rhagoletis indifferens*
 t. *Rhagoletis mendax*
 u. *Rhagoletis pomonella*
 v. *Rhagoletis ribicola*
 w. *Rhagoletis suavis*
 x. *Trirhithomyia (Pardalaspis) cyanescens*

Thrips palmi
Toxoptera citricida
Trioza erytrae
Unaspis citri
Xiphinema americanum sensu lato (non-European populations)
Xiphinema californicum

Ralstonia solanacearum (Pseudomonas solanacearum)
Xanthomonas campestris (all strains pathogenic to Citrus)
Xanthomonas campestris pv. *Oryzae (Ishiyama)*
Xanthomonas campestris pv. *phaseoli*
Xanthomonas campestris pv. *pruni*
Xanthomonas campestris pv. *vesicatoria*
Xanthomonas fragariae
Xylella fastidiosa (including peach phony bacterium)
Xylophilus ampelinus (Panagopoulos)

Gymnosporangium spp. (non-European)
Inonotus weirii
Melampsora farlowii
Melampsora medusae
Mycosphaerella dearnessii (Scirrhia acicola)
Mycosphaerella gibsonii (anamorph)
Cercoseptoria pini-densiflorae
Mycosphaerella larici-leptolepidis (M. larici-leptolepis)
Mycosphaerella (Scirrhia) pini
Mycosphaerella populorum
Phaeoramularia (Cercospora angolensis)
Phialophora cinerescens
Phoma andina
Phyllosticta solitaria
Phytophthora fragariae var. *fragariae*
Plasmopara halstedii
Puccinia horiana
Puccinia pittieriana
Septoria lycopersici var. *Malagutii*
Stegophora ulmea
Synchytrium endobioticum
Thecaphora solani

Tilletia indica
Trechispora brinkmannii
Venturia nashicola

Verticillium albo-atrum
Verticillium dahliae

Viruses and virus-like organisms

Apple proliferation MLO
 Apricot chlorotic leafroll MLO
 Elm phloem necrosis MLO
 Pear decline MLO
 Potato viruses and virus-like organisms such as:

- a. *Andean potato latent tymovirus*
- b. *Andean potato mottle comovirus*
- c. *Arracacha B virus (oca strain)*
- d. *Potato spindle tuber viroid*
- e. *Potato T capillovirus*
- f. *Tobacco ringspot nepovirus (Andean potato calico strain syn. Potato black ringspot virus)*

Non-European isolates of:

- g. *Potato A potyvirus*
- h. *Potato leaf roll luteovirus*
- i. *Potato M carlavirus*
- j. *Potato S carlavirus*
- k. *Potato X potexvirus*
- l. *Potato V potyvirus*
- m. *Potato Y potyvirus (including y^O, y^N and y^C)*

Tobacco ringspot nepovirus
 Tomato ringspot nepovirus
 Virus and virus-like organisms of *Cydonia*, *Fragaria*, *Malus*, *Prunus*, *Pyrus*, *Ribes*,

Rubus and *Vitis*, such as:

- a. *Blueberry leaf mottle nepovirus*
- b. *Cherry rasp leaf nepovirus*
- c. *Peach latent mosaic viroid (Peach American mosaic disease)*
- d. *Peach phony rickettsia*
- e. *Peach rosette MLO*
- f. *Peach rosette mosaic nepovirus*
- g. *Peach X-disease MLO*
- h. *Peach yellows MLO*
- i. *(American) Plum line pattern virus*
- j. *Raspberry leaf curl virus*
- k. *Strawberry latent C disease*
- l. *Strawberry vein-banding caulimovirus*
- m. *Strawberry witches' broom MLO*

Other non-European viruses and virus-like organisms of these hosts

Viruses transmitted by *Bemisia tabaci* such as:

- a. *Bean golden mosaic geminivirus*
- b. *Cowpea mild mottle carlavirus*
- c. *Lettuce infectious yellows closterovirus*
- d. *Pepper mild tigré geminivirus*
- e. *Squash leaf curl geminivirus*
- f. *Euphorbia mosaic geminivirus*
- g. *Florida tomato geminivirus*

Parasitic plants

Arceuthobium spp. (non-European)

Pests whose introduction into and whose spread within the relevant protected zones of the European Union is prohibited without reference to any specific plants or plants products.

a) Insects, mites and nematodes, at all stages of their development

Species	Protected Zones
<i>Bemisia tabaci</i> (European)	Denmark, Finland, Ireland, Portugal (Entre Douro e Minho, Traz-os, Montes, Beira Litoral, Beira Interior, Ribatejo e Oeste, Alentejo, Madeira and Azores), Sweden, United Kingdom
<i>Daktulosphaira vitifoliae</i>	Cyprus
<i>Dryocosmus kuriphilus</i>	Ireland, Portugal, United Kingdom
<i>Globodera pallida</i>	Finland, Latvia, SI, SK
<i>Leptinotarsa decemlineata</i>	Finland (the districts of Åland, Turku, Uusimaa, Kymi, Häme, Pirkanmaa, Satakunta), Ireland, Portugal (Azores and Madeira), Sweden (Malmöhus, Kristianstads, Blekinge, Kalmar, Gotlands Län, Halland), Spain (Minorca

	and Ibiza), United Kingdom, Greece, Cyprus, Malta, Ireland
<i>Liriomyza bryoniae</i>	Ireland and UK (Northern Ireland)
<i>Thaumetopoea processionea</i>	Ireland, United Kingdom (excluding the local authority areas of Barnet; Brent, Bromley; Camden; City of London, City of Westminster; Croydon; Ealing; Elmbridge District; Epsom and Ewell District; Hackney; Hammersmith and Fulham; Haringey; Harrow; Hillingdon; Hounslow; Islington; Kensington and Chelsea; Kingston upon Thames; Lambeth; Lewisham; Merton; Reading; Richmond Upon Thames; Runnymede District; Slough; South Oxfordshire; Southwark; Spelthorne District; Sutton; Tower Hamlets; Wandsworth and West Berkshire)

b) Viruses and virus-like organisms

Species	Protected Zones
Beet necrotic yellow vein virus	Denmark, Finland, France (Brittany), Ireland, Portugal (Azores), Sweden, United Kingdom, Lithuania
Tomato spotted wilt virus	Finland and Sweden

Pests whose introduction into, and whose spread within, the certain protected zones of the European Union is prohibited, with reference to specific plants or plant products.

a) Insects, mites and nematodes, at all stages of their development

Species	Protected zone(s)
<i>Anthonomus grandis</i>	Greece, Spain (Andalucia, Catalonia, Extremadura, Murcia, Valencia)
<i>Cephalcia lariciphila</i>	Ireland, United Kingdom (N. Ireland, Isle of Man and Jersey)
<i>Dendroctonus micans</i>	Ireland, Greece, United Kingdom
<i>Gilpinia hercyniae</i>	Greece, Ireland, United Kingdom (N. Ireland, Isle of Man and Jersey)
<i>Gonipterus scutellatus</i>	Greece, Portugal
<i>Ips amitinus</i>	Greece, Ireland, United Kingdom
<i>Ips cembrae</i>	Greece, Ireland, United Kingdom (N. Ireland, Isle of Man)
<i>Ips duplicatus</i>	Greece, Ireland, United Kingdom
<i>Ips sexdentatus</i>	Ireland, United Kingdom, (N. Ireland, Isle of Man)
<i>Ips typographus</i>	Ireland, United Kingdom
<i>Sternochetus mangiferae</i>	Portugal (Alentejo, Algarve, Madeira) Spain (Granada, Malaga)
<i>Thaumetopoea pityocampa</i>	Spain (Ibiza)

b) Bacteria

Species	Protected zone(s)
<i>Curtobacterium flaccumfaciens</i> pv. <i>flaccumfaciens</i>	Greece, Portugal, Spain
<i>Erwinia amylovora</i>	Spain (except the autonomous communities of Castilla la Mancha, Castilla y Leon, Extremadura, Murcia, Navarra and La Rioja, and the Comarca of the Community of Calatayud (Aragon) and the Province of Guipuzcoa (Basque Country)), Estonia, France (Corsica), Ireland, Italy (Abruzzo, Apulia, Basilicata, Calabria, Campania, Emilia-Romagna (the provinces of Parma and Piacenza), Lazio, Liguria, Lombardy (except the provinces of Mantua and Sondrio), Marche, Molise, Piedmont, Sardinia, Sicily, Tuscany, Umbria, Valle d'Aosta, Veneto (except the provinces of Rovigo and Venice, the communes Castelbaldo, Barbona, Boara Pisani, Masi, Piacenza d'Adige, S. Urbano, Vescovana in the province of Padova and the area situated to the south of highway A4 in the province of Verona)) Latvia, Lithuania, Portugal, Slovenia (except the regions Gorenjska, Koroska, Maribor, and Notranjska), Slovakia (except the communes of Blahova, Horne Myto, Ohrady, okoc, Topolniky and Trhova Hradiska (Dunajska Streda County), Hronovce and Hronske Klacany (Levice County), Dvory nad Zitavou (Nove Zamky County), Malinec (Poltar County), Hrhov (Roznava County), Vel'ke Ripnany (Topolcany County), Kazimir, Luhyna, Maly Hores, Svatus and Zatin (Trebisov County)), Finland, UK (Northern Ireland, Isle of Man, and Channel Islands)

c) Fungi

Species	Protected zone(s)
<i>Cryphonectria parasitica</i>	Czech Republic, Ireland, Sweden, UK
<i>Glomerella gossypii</i>	Greece
<i>Gremmeniella abietina</i>	Ireland, United Kingdom (N. Ireland)
<i>Hypoxyton mammatum</i>	Ireland, United Kingdom (N. Ireland)

d) Viruses and Virus-like organisms

Species	Protected zone(s)
Citrus tristeza virus (European Isolates)	Spain (except the regional units of Argolida and Chania), Portugal (except Algarve and Madeira), Malta
Grapevine flavescence doree MLO	Czech Republic, France (Champagne-Adrenne, Picardie (department de l'Aisne), Ile de France (comunes de Citry, Nanteul-sur-marne) and Lorraine), Italy (Apulia, Basilicata and Sardinia), Switzerland (except the Canton of Ticino and the Misox Valley)

2.6 Prohibitions

Annex III/Part A

Scientific Name	Common Name	Plant or Plant Part Affected
	Bark	Bark (isolated bark of <i>Castanea</i> Mill.)
	Soil	Soil and growing medium as such, which consists in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark, other than that composed entirely of peat. Refer also, AD 1 within Section 4 of this document
<i>Abies</i> spp.	Fir	Plants other than fruit and seeds
<i>Castanea</i> spp.	Chestnut	Plants with leaves other than fruit and seeds
<i>Cedrus</i> spp.	Cedar	Plants other than fruit and seeds
<i>Chaenomeles</i> spp.	Flowering quince	Plants intended for planting other than dormant plants free from leaves, flowers and fruit Plants and plant parts (including live pollen) are prohibited entry into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes – except department of Rhone, Bourgogne, Auvergne – except department of Puy de Dome, Provence-Alpes-Côte d’Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands)
<i>Chamaecyparis</i> spp.	Cypress	Plants other than fruit and seeds
<i>Citrus</i> spp. and hybrids		Nursery Stock other than fruit and seeds
<i>Cotoneaster</i> spp.		Plants and plant parts (including live pollen), are prohibited entry into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes - except department of Rhone, Bourgogne, Auvergne - except department of Puy de Dome, Provence-Alpes-Côte d’Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands)
<i>Crataegus</i> spp.	Hawthorn	Refer <i>Chaenomeles</i> spp.
<i>Cydonia</i> spp.	Quince	Refer <i>Chaenomeles</i> spp.
<i>Eriobotrya</i> spp.	Loquat	Refer <i>Cotoneaster</i> spp.
<i>Fortunella</i> and hybrids		Nursery Stock other than fruit and seeds
<i>Juniperus</i> spp.	Juniper	Plants other than fruit and seeds
<i>Larix</i> spp.	Larch	Plants other than fruit and seeds

<i>Malus</i> spp.	Apple	<p>Plants intended for planting other than dormant plants free from leaves, flowers and fruit</p> <p>Plants for planting (including budwood) are prohibited entry into Spain, Ireland, Italy, Portugal, United Kingdom (Northern Ireland, Isle of Man and the Channel Islands), Austria and Finland.</p> <p>Ref.: 4 August 1995 and 17 August 1995, faxes from Mdme Petter, Ministry of Agriculture and Fisheries, France to Kay Shapland</p> <p>Live pollen of <i>Malus</i> Mill, is prohibited into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes - except department of Rhone, Bourgogne, Auvergne – department of Puy de Dome, Provence-Alpes-Côte d’Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands)</p>
<i>Mespilus</i> spp.	Medlar	Refer <i>Cotoneaster</i> spp.
<i>Picea</i> spp.	Spruce	Plants other than fruit and seeds
<i>Pinus</i> spp.	Pine	Plants other than fruit and seeds
Poaceae (Gramineae)		Plants of the family Poaceae (Gramineae), other than plants of ornamental perennial grasses of the subfamilies Bambusoideae, Panicoideae and of the genera <i>Buchloe</i> , <i>Bouteloua</i> Lag., <i>Calamagrostis</i> , <i>Cortaderia</i> Stapf., <i>Glyceria</i> R.Br., <i>Hakonechloa</i> Mak. ex Honda, <i>Hystrix</i> , <i>Molinia</i> , <i>Phalaris</i> L., <i>Shibataea</i> , <i>Spartina</i> Schreb., <i>Stipa</i> L. and <i>Uniola</i> L, intended for planting, other than seeds
<i>Poncirus</i> and hybrids		Nursery Stock other than fruit and seeds
<i>Prunus</i> spp.	Plum	Plants intended for planting other than dormant plants free from leaves, flowers and fruit
<i>Pseudotsuga</i> spp.	Douglas Fir	Plants other than fruit and seeds
<i>Pyracantha</i> spp.	Firethorn	Refer <i>Cotoneaster</i> spp.
<i>Pyrus</i> spp.	Pear	<p>Plants intended for planting other than dormant plants free from leaves, flowers and fruit</p> <p><i>Pyrus</i> budwood is prohibited entry into Spain, Ireland, Italy, Portugal, United Kingdom (Northern Ireland, Isle of Man and the Channel Islands), Austria, Finland.</p> <p><i>Pyrus</i> plants (other than budwood) is prohibited entry into Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-</p>

		Comté, Rhône-Alpes – except department of Rhone, Bourgogne, Auvergne – except department of Puy de Dome, Provence-Alpes-Côte d’Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, United Kingdom (Northern Ireland, Isle of Man and the Channel Islands), Austria, Finland. Ref.: 10 August 1995, fax from Mdme Petter, Ministry of Agriculture and Fisheries, France to Kay Shapland Live pollen of <i>Pyrus</i> L. is prohibited into Austria, Finland, Spain, France (Champagne-Ardenne, Alsace-except department of Bas-Rhin, Lorraine, Franche-Comté, Rhône-Alpes - except department of Rhone, Bourgogne, Auvergne – department of Puy de Dome, Provence-Alpes-Côte d’Azur, Corse, Languedoc-Roussillon), Ireland, Italy, Portugal, UK (Northern Ireland, Isle of Man and the Channel Islands)
<i>Quercus</i> spp.	Oak	Plants with leaves other than fruit and seeds
<i>Rosa</i> spp.	Rose	Refer <i>Chaenomeles</i> spp.
Solanaceae		Tubers of spp of <i>Solanum tuberosum</i> and their hybrids Plants of stolon or tuber forming species of <i>Solanum</i> spp. and their hybrids intended for planting Plants of Solanaceae intended for planting, other than seeds
<i>Sorbus</i> spp., other than <i>Sorbus intermedia</i>	Mountain ash	Refer <i>Cotoneaster</i> spp.
<i>Stranvaesia</i> spp.		Refer <i>Cotoneaster</i> spp.
<i>Tsuga</i> spp.	Hemlock	Plants other than fruit and seeds
<i>Vitis</i> spp.	Grape	Plants other than fruits

Prohibitions:
Annex III/Part B

Plants, plant products and other objects which are prohibited	Zones from which entry is prohibited
1. Without prejudice to the prohibitions applicable to the plants listed in Annex	Spain (except the autonomous communities of Castilla la Mancha, Castilla y Leon,

<p>IIIA(9), (9.1), (18), where appropriate, plants and live pollen for pollination of: <i>Amelanchier</i> Med., <i>Chaenomeles</i> Lindl., <i>Crataegus</i> L., <i>Cydonia</i> Mill., <i>Eriobotrya</i> Lindl., <i>Malus</i> Mill., <i>Mespilus</i> L., <i>Pyracantha</i> Roem., <i>Pyrus</i> L. and <i>Sorbus</i> L., other than fruit and seeds, originating in third countries other than Switzerland and other than those recognised as being free from <i>Erwinia amylovora</i> (Burr.) Winsl. Et al. in accordance with the procedure laid down in Article 18(2), or in which pest free areas have been established in relation to <i>Erwinia amylovora</i> (Burr.) Winsl. et al. in accordance with the relevant International Standard for Phytosanitary Measures and recognised as such in accordance with the procedure laid down in Article 18(2).</p>	<p>Extremadura, Murcia, Navarra and La Rioja, and the Comarca of the Community of Calatayud (Aragon) and the Province of Guipuzcoa (Basque Country), Estonia, France (Corsica), Ireland, Italy (Abruzzo, Apulia, Basilicata, Calabria, Campania, Emilia-Romagna (the provinces of Parma and Piacenza), Lazio, Liguria, Lombardy (except the provinces of Mantua and Sondrio), Marche, Molise, Piedmont, Sardinia, Sicily, Tuscany, Umbria, Valle d'Aosta, Veneto (except the provinces of Rovigo and Venice, the communes Castelbaldo, Barbona, Boara Pisani, Masi, Piacenza d'Adige, S. Urbano, Vescovana in the province of Padova and the area situated to the south of highway A4 in the province of Verona)) Latvia, Lithuania, Portugal, Slovenia (except the regions Gorenjska, Koroska, Maribor, and Notranjska), Slovakia (except the communes of Blahova, Horne Myto, Ohrady, okoc, Topolniky and Trhova Hradská (Dunajská Streda County), Hronovce and Hronske Klacany (Levice County), Dvory nad Zitavou (Nove Zamky County), Malinec (Poltar County), Hrhov (Roznava County), Vel'ke Ripnany (Topolcany County), Kazimir, Luhyna, Maly Hores, Svatusé and Zatin (Trebisov County)), Finland, UK (Northern Ireland, Isle of Man, and Channel Islands)</p>
<p>2. Without prejudice to the prohibitions applicable to the plants listed in Annex IIIA(9), (9.1), (18), where appropriate, plants and live pollen for pollination of: <i>Cotoneaster</i> Ehrh. and <i>Photinia davidiana</i> (Dcne.) Cardot, other than fruit and seeds, originating in third countries other than those recognised as being free from <i>Erwinia amylovora</i> (Burr.) Winsl. et al. in accordance with the procedure laid down in Article 18(2), or in which pest free areas have been established in relation to <i>Erwinia amylovora</i> (Burr.) Winsl. et al. in accordance with the relevant International Standard for Phytosanitary Measures and recognised as such in accordance with the procedure laid down in Article 18(2)</p>	<p>F (Corsica), IRL, I (Abruzzi; Apulia; Basilicata; Calabria; Campania; Emilia-Romagna: provinces of Forlì-Cesena (with exclusion of the provincial area situated to the North of the State road n. 9 — Via Emilia) ◀, Parma, Piacenza and Rimini (with exclusion of the provincial area situated to the North of the State road n. 9 — Via Emilia) ◀; Friuli-Venezia Giulia; Lazio; Liguria; Lombardy; Marche; Molise; Piedmont; Sardinia; Sicily; Tuscany; Umbria; Valle d'Aosta; Veneto: except in the province of Rovigo the communes Rovigo, Polesella, Villamarzana, Fratta Polesine, San Bellino, Badia Polesine, Trecenta, Ceneselli, Pontecchio Polesine, Arquà Polesine, Costa di Rovigo, Occhiobello, Lendinara, Canda, Ficarolo, Guarda Veneta, Frassinelle Polesine, Villanova del Ghebbo, Fiesso Umbertiano, Castalguglielmo, Bagnolo di Po, Giacciano con Baruchella, Bosaro, Canaro, Lusia, Pincara,</p>

	<p>Stienta, Gaiba, Salara, and in the province of Padova the communes Castelbaldo, Barbona, Piacenza d'Adige, Vescovana, S. Urbano, Boara Pisani, Masi, and in the province of Verona the communes Palù, Roverchiara, Legnago, Castagnaro, Ronco all'Adige, Villa Bartolomea, Oppeano, Terrazzo, Isola Rizza, Angiari), LV, LT, A (Burgenland, Carinthia, Lower Austria, Tirol (administrative district Lienz), Styria, Vienna), P, SI (except the Gorenjska and Maribor regions) ◀, SK (except the communes of Blahová, Horné Mýto and Okoč (Dunajská Streda County), Hronovce and Hronské Kľačany (Levice County), Veľké Ripňany (Topoľčany County), Málinec (Poltár County), Hrhov (Rožňava County), Kazimír, Luhyňa, Malý Horeš, Svätušie and Zatín (Trebíšov County)) ◀, FI, UK (Northern Ireland, Isle of Man and Channel Islands)</p>
--	--

2.7 MPI specified Maximum Pest Limits (MPLs)

Please note; for all commodities exported to the EU requiring MPI phytosanitary certificates, the following levels have been set by MPI to facilitate exports while still meeting the importing country's minimum requirements for specified quarantine pests and soil.

Quarantine pests* specified by the EU	0.5%
Soil (for all plant products excluding seed for sowing) specified for specific commodities	25g/600unit or as
Soil (seed for sowing)	0.1% by weight

*Quarantine pests for the EU include organisms identified within:

- quarantine pests section of this ICPR
- additional declarations
- phytosanitary import permit

2.8 Transit Provisions

Not specified

2.9 Inspection on Arrival

All consignments may be subject to inspection on arrival

2.10 Wood packaging

Refer to Forestry ICPR for the EU, link below:

<http://www.biosecurity.govt.nz/exports/forests/standards/european-union.htm>

3. Commodity Class Requirements

3.1 Fruit and Vegetables

3.1.1 Fresh Fruit and Vegetables (intended for consumption)

Conditions:

Phytosanitary import permit not required. Refer to commodity for specific requirements.

3.1.2 Dried Fruit and Vegetables

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

3.1.3 Frozen Fruit and Vegetables

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

3.2 Cut Flowers and Foliage

Conditions:

Phytosanitary import permit not required. Refer to specific commodity for requirements for a phytosanitary certificate.

3.3 Nursery Stock

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. Additional declaration generally required. Letter of Authority may be required, refer Section 2.2.

Refer to commodity specific requirements for Nursery Stock

Additional declarations for plants for planting apply to tissue culture material with the exception of the soil related additional declarations.

Refer to general requirements for Growing Media and Packing Material

If unsure of the requirements for the genus/species or type (i.e. plant, budwood, tissue culture) of nursery stock for export to the European Union listed within the ICPR, contact MPI before a phytosanitary certificate is issued. However, the import requirements for the EU stipulate the requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

Note: Exporters are advised to plan in advance if shipping to the EU as field surveys and testing is required.

3.4 Seeds, Grains and Nuts

3.4.1 Seeds, Grains and Nuts for Sowing

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required unless specified for the commodity.

Note:

Seeds of crops treated with plant protection products containing fipronil shall not be used or placed on the market. There is an exception for seeds intended to be sown in greenhouses. The seeds of leek, onions, shallots, the group of Brassica vegetables intended to be sown in fields and harvested before flowering are also exempt.

3.4.2 Entry of seeds for sowing into the UK

Conditions:

Where a consignment of seed destined for the UK has been subjected to a pre-export treatment by a MPI approved Organisation/treatment supplier, the treatment undertaken may be stated on the MPI phytosanitary certificate.

If this option is selected:

- It will enlighten Fera, the UK import phytosanitary inspectors, as to why they may detect dead insects within the consignment,
- Minimise the chance of Fera requiring a second fumigation.

Note: If seed is less than 6 months old and a dead pest is found, Fera is likely to require destruction, re-export or treatment. If seed is more than 6 months old and a dead pest is found, Fera is less likely to take action.

3.5 Growing Media and Packing Material

Conditions:

Refer general requirements and specific commodity requirements, **AD 1 (consignment specific)**

1. **Soil and growing medium, attached to or associated with plants, consisting in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark or consisting in part of any solid inorganic substance, intended to sustain the vitality of the plants.**

Note: “the growing medium at the time of planting ...” only applies when there is soil or growing medium attached to, or associated with, the commodity at the time of import (FERA correspondence 4 August 2010). MPI interprets this as saying it only applies if the roots have not been washed free of soil and have been inspected to confirm this.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 34, option (a) first indent, of EC Plant Health Directive 2000/29/EC”

This declares:

-The growing medium, at the time of planting was free from soil, and organic matter

Or

“Consignment complies with Annex IV.A.I, point 34, option (a) second indent, of EC Plant Health Directive 2000/29/EC”

This declares:

-The growing medium, at the time of planting was found free from insects and harmful nematodes and subjected to appropriate examination or heat treatment or fumigation to ensure that it was free from other harmful organisms

Or

“Consignment complies with Annex IV.A.I, point 34, option (a) third indent, of EC Plant Health Directive 2000/29/EC”

This declares:

-The growing medium, at the time of planting was subjected to appropriate heat treatment or fumigation to ensure freedom from harmful organisms

And

“Consignment complies with Annex IV.A I, point 34, option (b) first indent, of EC Plant Health Directive 2000/29/EC”

This declares:

-Since planting appropriate measures have been taken to ensure that the growing medium has been maintained free from harmful organisms

Or

“Consignment complies with Annex IV.A I, point 34, option (b) second indent, of EC Plant Health Directive 2000/29/EC”

This declares:

-Within two weeks prior to dispatch, the plants were shaken free from the medium leaving the minimum amount necessary to sustain vitality during transport and, if replanted, the growing medium used for that purpose meets the requirements laid down in (a)

4 Commodity Specific Requirements

4.1 Fresh Fruit and Vegetables

Actinidia deliciosa

Kiwifruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required except for the Canary Islands where it is compulsory.

Allium cepa

Onion

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Allium porrum

Leek

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom and Northern Ireland:

Additional Declaration:

“Consignment complies with Annex IV.B, point 22, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the consignment or lot shall not contain more than 1% by weight of soil
Or

“Consignment complies with Annex IV.B, point 22, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants are intended for processing at premises with officially approved waste disposal facilities, which ensures that there is no risk of spreading BNYVV

Allium sativum

Garlic

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Annona cherimola

Cherimoya

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Apium graveolens

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and Additional declaration required. For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom and Northern Ireland:

Additional Declaration:

“Consignment complies with Annex IV.B, point 22, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the consignment or lot shall not contain more than 1% by weight of soil
Or

“Consignment complies with Annex IV.B, point 22, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the fruit are intended for processing at premises with officially approved waste disposal facilities, which ensures that there is no risk of spreading BNYVV
And

“Consignment complies with Annex IV.A.I, point 32.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*

Or

“Consignment complies with Annex IV.A.I, point 32.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares immediately prior to their export, the fruit have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*

Note: *Liriomyza sativae* and *Amauromyza maculosa* are not known to occur in New Zealand

Asparagus spp.

Asparagus

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Beta spp. (except B. vulgaris)

Beetroot, Sugar beet etc

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom and Northern Ireland:

Additional Declaration

“Consignment complies with Annex IV.B, point 22, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the consignment or lot shall not contain more than 1% by weight of soil

Or

“Consignment complies with Annex IV.B, point 22, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the fruit are intended for processing at premises with officially approved waste disposal facilities, which ensures that there is no risk of spreading BNYVV

Brassica oleracea var. gemmifera

Brussels sprouts

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Capsicum spp.

Bell peppers, capsicums

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Citrus spp.

Citrus

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required. The fruits shall be free from peduncles and leaves and the packaging shall bear an appropriate origin mark.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 16.2, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Xanthomonas campestris* (all strains pathogenic to citrus)

And

“Consignment complies with Annex IV.A.I, point 16.3, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Cercospora angolensis*

And

“Consignment complies with Annex IV.A.I, point 16.4, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Guignardia citricarpa* (all strains pathogenic to *Citrus*)

Cucurbita maxima

Squash

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Cydonia oblonga

Quince

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Cyphomandra betacea

Tamarillo

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Daucus carota

Carrot

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.
For consignments entering Denmark, France (Brittany), Finland, Ireland, Azores (Portugal), Sweden, or the United Kingdom - the consignment will not gain entry if it contains more than 1% (by weight) of soil.

Diospyros kaki

Persimmon (Japanese)

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Fortunella spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required. The fruits shall be free from peduncles and leaves and the packaging shall bear an appropriate origin mark.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 16.2, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Xanthomonas campestris* (all strains pathogenic to citrus)

And

“Consignment complies with Annex IV.A.I, point 16.3, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Cercospora angolensis*

And

“Consignment complies with Annex IV.A.I, point 16.4, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Guignardia citricarpa* (all strains pathogenic to *Citrus*)

Fragaria spp.

Strawberry

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Ipomoea batatas

Kumara

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Lens culinaris

Lentil

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Malus domestica

Apples

Phytosanitary import permit not required. Phytosanitary certificate required.

Malus sylvestris var. pumila

Apples

Phytosanitary import permit not required. Phytosanitary certificate required.

Mangifera indica

Mangoes

Phytosanitary import permit not required. Phytosanitary certificate required.

Momordica spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Consignment complies with Annex IV.A.I, point 36.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit originate in a country free from *Thrips palmi*

Or

“Consignment complies with Annex IV.A.I, point 36.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit, immediately prior to their export, have been officially inspected and found free from *Thrips palmi*

Ocimum spp.

Conditions: (leafy vegetables of)

Phytosanitary import permit not required. Phytosanitary certificate and Additional declaration required.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit originate in a country free from *Bemisia tabaci* Genn. (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit, immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* Genn. (Non-European populations)

And

“Consignment complies with Annex IV.A.I, point 32.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*

Or

“Consignment complies with Annex IV.A.I, point 32.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit, immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*

Note: *Liriomyza sativae* and *Amauromyza maculosa* are not known to occur in New Zealand

Passiflora edulis

Passionfruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Persea americana

Avocado

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate not required.

Poncirus spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required. The fruits shall be free from peduncles and leaves and the packaging shall bear an appropriate origin mark.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 16.2, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Xanthomonas campestris* (all strains pathogenic to citrus)”

And

“Consignment complies with Annex IV.A.I, point 16.3, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Cercospora angolensis*

And

“Consignment complies with Annex IV.A.I, point 16.4, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the fruits originate in a country recognised as being free from *Guignardia citricarpa* (all strains pathogenic to *Citrus*)

Prunus spp.

Stonefruit/Summerfruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Psidium spp.

Guava

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Pyrus communis

Pear

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Ribes nigrum

Currant - black

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Solanum tuberosum Potato (For consumption only)

Conditions:

Normally prohibited. Please contact the MPI Plant Exports Team

Solanum melongena

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 36.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit originate in a country free from *Thrips palmi*

Or

“Consignment complies with Annex IV.A.I, point 36.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the fruit, immediately prior to their export, have been officially inspected and found free from *Thrips palmi*

Note: *Thrips palmi* is not known to occur in New Zealand

Vaccinium corymbosum

Blueberry

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

4.2 Cut Flowers and Foliage

Aster spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

Dendranthema spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 32.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*

Or

“Consignment complies with Annex IV.A.I, point 32.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*

Dianthus spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 32.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*

Or

“Consignment complies with Annex IV.A.I, point 32.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*

Eryngium spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

Gypsophila spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 32.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*

Or

“Consignment complies with Annex IV.A.I, point 32.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*

And

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

Hypericum spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

Lisianthus spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

Orchidaceae

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Consignment complies with Annex IV.A.I, point 36.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Thrips palmi*

Or

“Consignment complies with Annex IV.A.I, point 36.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Thrips palmi*

Pelargonium spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Rosa spp.

Roses

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

Solidago spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

And

“Consignment complies with Annex IV.A.I, point 32.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Liriomyza sativae* and *Amauromyza maculosa*

Or

“Consignment complies with Annex IV.A.I, point 32.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers, immediately prior to their export, have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*

Trachelium spp.

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 45.2, first indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers originate in a country free from *Bemisia tabaci* (Non-European populations)

Or

“Consignment complies with Annex IV.A.I, point 45.2, second indent, of EC Plant Health Directive 2000/29/EC”

This declares the cut flowers immediately prior to their export, have been officially inspected and found free from *Bemisia tabaci* (Non-European populations)

4.3 Nursery Stock

Plants and parts of plants for propagation (other than seeds). Phytosanitary import permit not required. Phytosanitary certificate required. Additional declarations required where specified.

Refer Section 2.6 for Prohibited Items.

Explanation of Format	
Bulbs	Refers to bulbs/corms/rhizomes/tubers (without foliage)
Plants	Includes whole plants and parts of plants intended for planting other than seed. Check also for other listings i.e. budwood
Tissue culture	The growth of plants or plant parts in a clear aseptic medium in a closed transparent container
Additional Declarations	
2,5,7	(Numbers in standard text) - compulsory AD
1,4	(Numbers in bold text) – ADs are commodity specific

4.3.1 Requirements for General Plant Groups

General

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. Additional declarations required as specified.

Refer to Section 4.3.2 for commodity specific requirements

Aquatic Plants

For phytosanitary requirements of other aquatic plants, please contact Plant Exports for further information.

Conditions for *Ceratophyllum* to the Netherlands only

Phytosanitary import permit not required. Phytosanitary certificate required. Additional declarations required as follows:

“Consignment complies with Annex IV.A.I, point 36.1, option (a), EC Plant Health Directive 2000/29/EC”

“Consignment complies with Annex IV.A.I, point 46. (b), of EC Plant Health Directive 2000/29/EC”

“Consignment complies with Annex IV.A.I, point 46. (b), option (c) Plant Health Directive 2000/29/EC”

“Consignment complies with Annex IV.A.I. point 46. (b), option (d) Plant Health Directive 2000/29/EC”

“The specified plants have been inspected and found free from the genus Pomacea (Perry) immediately prior to leaving New Zealand”.

Note: 46 (b) (c) must be supervised by an IVA to confirm the following:
Plants have been grown underwater.
Permethrin used to treat the shipment and packing area
And/or
packed in an airtight liner and subjected to low oxygen for >3 days.

Bonsai

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 43, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants, including those collected directly from natural habitats have been grown, held and trained for at least two consecutive years prior to dispatch in officially registered nurseries, which are subject to an officially supervised control regime

Note: The control regime conditions are as follows – do not identify conditions unless specifically identified as requiring to be stated

And

“Consignment complies with Annex IV.A.I, point 43, option (b) (aa) of EC Plant Health Directive 2000/29/EC”

This declares the plants on the nurseries referred to in (a) shall:
at least during the period referred to in (a):

- be potted, in pots which are placed on shelves at least 50 cm above ground,
- have been subjected to appropriate treatments to ensure freedom from non-European rusts: the active ingredient, concentration and date of application of these treatments shall be mentioned on the phytosanitary certificate provided for in Article 7 of this Directive under the rubric ‘disinfestation and/or disinfection treatment’.
- have been officially inspected at least six times a year at appropriate intervals for the presence of harmful organisms of concern, which are those in the Annexes to the Directive. These inspections, which shall also be carried out on plants in the immediate vicinity of the nurseries referred to in (a), shall be carried out at least by visual examination of each row in the field or nursery and by visual examination of all parts of the plant above the growing medium, using a random sample of at least 300 plants from a given genus where the number of plants of that genus is not more than 3 000 plants, or 10 % of the plants if there are more than 3 000 plants from that genus,
- have been found free, in these inspections, from the relevant harmful organisms of concern as specified in the previous indent. Infested plants shall be removed. The remaining plants, where appropriate, shall be

effectively treated, and in addition shall be held for an appropriate period and inspected to ensure freedom from such harmful organisms of concern,

- have been planted in either an unused artificial growing medium or in a natural growing medium, which has been treated by fumigation or by appropriate heat treatment and has been of any harmful organisms,
- have been kept under conditions which ensure that the growing medium has been maintained free from harmful organisms and within two weeks prior to dispatch, have been:

And either:

“Consignment complies with Annex IV.A.I, point 43, option (b) (aa) indent seven, of EC Plant Health Directive 2000/29/EC”

This declares the plants were shaken and washed with clean water to remove the original growing medium and kept bare rooted

Or

“Consignment complies with Annex IV.A.I, point 43, option (b) (aa) indent eight, of EC Plant Health Directive 2000/29/EC”

This declares the plants were shaken and washed with clean water to remove the original growing medium and replanted in growing medium which meets the conditions laid down in (aa) fifth indent

Or

“Consignment complies with Annex IV.A.I, point 43, option (b) (aa) indent nine of EC Plant Health Directive 2000/29/EC”

This declares the plants were subjected to appropriate treatments to ensure that the growing medium is free from harmful organisms, the active ingredient, concentration and date of application of these treatments shall be mentioned on the phytosanitary certificate provided for in Article 7 of this Directive under the rubric ‘disinfestation and/or disinfection treatment

And

“Consignment complies with Annex IV.A.I, point 43, option (b) (bb) of EC Plant Health Directive 2000/29/EC”

This declares the plants have been packed in closed containers which have been officially sealed and bear the registration number of the registered nursery; this number shall also be indicated under the rubric additional declaration on the phytosanitary certificate provided enabling the consignments to be identified

Cactaceae

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required. Additional declarations required as identified below.

4.3.2 Specific Commodity Requirements

General

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.
Additional declaration(s) required as indicated.

Appendix 1 provides a key to the most common additional declarations

The following additional declaration is required for plants for planting species listed in Appendix 2:

“New Zealand is free from *Xylella fastidiosa*”

Please Note

The specific requirements for nursery stock of certain named genus/species are listed below. For any unnamed genus/species or particular plant material (for example whole plants, cuttings, budwood, tissue culture or pollen), please check the requirements with your importer and ensure you obtain the pertinent information before requesting a phytosanitary certificate.

Abelia spp.

And

Plants, other than those raised from seed, have been:

“Consignment complies with Annex IV.A.I, point 21.1, option (a) first indent, of EC Plant Health Directive 2000/29/EC”

This declares the plants are officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for Strawberry latent “C” virus, Strawberry vein banding virus and Strawberry witches broom mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

Or

“Consignment complies with Annex IV.A.I, point 21.1, option (a) second indent, of EC Plant Health Directive 2000/29/EC”

Derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for Strawberry latent “C” virus, Strawberry vein banding virus and Strawberry witches broom mycoplasma using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

And

“Consignment complies with Annex IV.A.I, point 21.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of diseases caused by Strawberry latent “C” virus, Strawberry vein banding virus and Strawberry witches broom mycoplasma have been observed on plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last complete cycle of vegetation

And

Plants of *Fragaria* spp. intended for planting, other than seeds, originating in countries where *Aphelenchoides besseyi* is known to occur:

“Consignment complies with Annex IV.A.I, point 21.2, option (a), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of *Aphelenchoides besseyi* have been observed on plants at the place of production since the beginning of the last complete cycle of vegetation

Or in the case of plants in tissue culture:

“Consignment complies with Annex IV.A.I, point 21.2, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been derived from plants, which no symptoms of *Aphelenchoides besseyi* have been observed on at the place of production since the beginning of the last complete cycle of vegetation

Or

This declares the plants have been officially tested by appropriate nematological methods and have been found free from *Aphelenchoides besseyi*

And

Plants intended for planting, other than seeds

“Consignment complies with Annex IV.A.I, point 21.3, of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in an area known to be free from *Anthonomus signatus* and *Anthonomus bisignifer*

And

“Consignment complies with Annex IV.A.I, point 19.2, of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of diseases caused by *Phytophthora fragariae* var. *fragariae*, Arabis mosaic virus, Raspberry ringspot virus, Strawberry crinkle virus, Strawberry latent ringspot virus, Strawberry mild yellow edge virus, Tomato black ring virus, *Xanthomonas fragariae* and other non European viruses and virus-like organism have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation

And

“Consignment complies with Annex IV.A.I, point 28.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown throughout their life in an area established by MPI as being free from Chrysanthemum stem necrosis virus

Or

“Consignment complies with Annex IV.A.I, point 28.1, option (c), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown throughout their life in a place of production, established as being free from Chrysanthemum stem necrosis virus and verified through official inspections, and, where appropriate, testing

And

“Consignment complies with Annex IV.A.I, point 25.7, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in areas which have been found free from *Ralstonia solanacearum*

Or

“Consignment complies with Annex IV.A.I, point 25.7, option (b), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of *Ralstonia solanacearum* have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation

And

“Consignment complies with Annex IV.A.I, point 45.3. (b) option (a), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of Tomato yellow leaf curl virus have been observed on the plants, and

“Consignment complies with Annex IV.A.I, point 45.3. (b) option (a) (aa), of EC Plant Health Directive 2000/29/EC”

This declares:

- the plants originate in areas known to be free from *Bemisia tabaci*,

Or

“Consignment complies with Annex IV.A.I, point 45.3. (b) option (a) (bb), of EC Plant Health Directive 2000/29/EC”

This declares:

- the place of production has been found free from *Bemisia tabaci* on official inspections carried out at least monthly during the three months prior to export;

Or

“Consignment complies with Annex IV.A.I, point 45.3 (b) option (b), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of Tomato yellow leaf curl virus have been observed on the place of production and the place of production has been subject to an appropriate treatment and monitoring regime to ensure freedom from *Bemisia tabaci*

And

For plants of *Rubus* spp. intended for planting:

1. Originating in countries where the harmful organisms are known to occur on *Rubus* spp.

Relevant harmful organisms:

Black raspberry latent virus
Cherry leafroll virus
Prunus necrotic ringspot virus
Tomato ringspot virus

2. Other than seeds, originating in countries where the relevant harmful organisms are known to occur

Relevant harmful organisms:

Cherry rasp leaf virus (American)
Raspberry leaf curl virus (American)

Additional declarations:

“Consignment complies with Annex IV.A.I, point 24 (a) and (b), option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants are free from aphids, including their eggs

And

“Consignment complies with Annex IV.A.I, point 24 (a) and (b), option (b) (aa), first indent, of EC Plant Health Directive 2000/29/EC”

This declares the plants have been officially certified under a certification scheme requiring them to be derived in direct line from material which has been maintained under appropriate conditions and subjected to official testing for at least the relevant harmful organisms using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

Or

“Consignment complies with Annex IV.A.I, point 24 (a) and (b), option (b) (aa), second indent, of EC Plant Health Directive 2000/29/EC”

This declares the plants have been derived in direct line from material which is maintained under appropriate conditions and has been subjected, within the last three complete cycles of vegetation, at least once, to official testing for at least relevant harmful organisms using appropriate indicators or equivalent methods and has been found free, in these tests, from those harmful organisms

And

“Consignment complies with Annex IV.A.I, point 24 (a) and (b), option (b) (bb), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of diseases caused the relevant organisms have been observed on plants at the place of production, or on susceptible plants in its immediate vicinity, since the beginning of the last complete cycle of vegetation

And

“Consignment complies with Annex IV.A.I, point 19.2, of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of diseases caused by Arabis mosaic virus, Raspberry ringspot virus, Strawberry latent ringspot virus, Tomato black ring virus or any non-European viruses or virus like organisms have been observed on the plants at the place of production since the beginning of the last complete cycle of vegetation

Appendix 1: Additional Declarations (AD's) taken from EC Plant Health Directive 2000/29/EC Appendix IV. Part A

Examples of how to document additional declarations can be found at:

http://eagri.cz/public/web/file/76929/Leaflet_additional_declaration_EN.pdf

The EU stipulates requirements that particular genus/species have to fulfil prior to import. If there are no requirements listed for a particular genus/species then there are only the general import requirements that need to be followed – for example AD's 1-19. (FERA correspondence 9 June 2009)

1. **Soil and growing medium, attached to or associated with plants, consisting in whole or in part of soil or solid organic substances such as parts of plants, humus including peat or bark or consisting in part of any solid inorganic substance, intended to sustain the vitality of the plants.**

Note: “the growing medium at the time of planting ...” only applies when there is soil or growing medium attached to, or associated with, the commodity at

the time of import (FERA correspondence 4 August 2010). MPI interprets this as saying it only applies if the roots have not been washed free of soil and have been inspected to confirm this.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 34, option (a) first indent, of EC Plant Health Directive 2000/29/EC”

This declares:

-The growing medium, at the time of planting was free from soil, and organic matter

Or

“Consignment complies with Annex IV.A.I, point 34, option (a) second indent, of EC Plant Health Directive 2000/29/EC”

-The growing medium, at the time of planting was found free from insects and harmful nematodes and subjected to appropriate examination or heat treatment or fumigation to ensure that it was free from other harmful organisms

Or

“Consignment complies with Annex IV.A.I, point 34, option (a) third indent, of EC Plant Health Directive 2000/29/EC”

-The growing medium, at the time of planting was subjected to appropriate heat treatment or fumigation to ensure freedom from harmful organisms

And

“Consignment complies with Annex IV.A I, point 34, option (b) first indent, of EC Plant Health Directive 2000/29/EC”

-Since planting appropriate measures have been taken to ensure that the growing medium has been maintained free from harmful organisms

Or

“Consignment complies with Annex IV.A I, point 34, option (b) second indent, of EC Plant Health Directive 2000/29/EC”

-Within two weeks prior to dispatch, the plants were shaken free from the medium leaving the minimum amount necessary to sustain vitality during transport and, if replanted, the growing medium used for that purpose meets the requirements laid down in (a)

2. Plants intended for planting, other than: bulbs, corms, rhizomes, seeds, and tubers, originating in third countries

Note: *Thrips palmi* is not known to occur in New Zealand

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 36.1, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries

And

This declares the plants originate in an area, established in the country of export by the national plant protection service in that country, as being free from *Thrips palmi* Karny in accordance with relevant International Standards for Phytosanitary Measures

Or

“Consignment complies with Annex IV.A.I, point 36.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries

And

This declares the plants originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from *Thrips palmi* in accordance with relevant International Standards for Phytosanitary Measures, and declared free from *Thrips palmi* on official inspections carried out at least monthly during the three months prior to export

Or

“Consignment complies with Annex IV.A.I, point 36.1, option (c), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries

And

This declares the plants, immediately prior to export, the plants have been subjected to an appropriate treatment against *Thrips palmi* and have been officially inspected and found free from *Thrips palmi*

Or

“Consignment complies with Annex IV.A.I, point 36.1, option (d), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries

And

Originate from plant material (explants) which is free from *Thrips palmi*; are grown *in vitro* in a sterile medium under steril conditions that preclude the possibility of infestation with *Thrips palmi*; and are shipped in transparent containers under sterile conditions.

3. Plants intended for planting, other than; seeds, bulbs, tubers, corms, and rhizomes

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 46. (b), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of Bean golden mosaic virus, Cowpea mild mottle virus, lettuce infectious yellows virus, Pepper mild tigre virus, Squash leaf curl virus and other viruses transmitted by *Bemisia tabaci* Genn. have been observed on the plants during their complete cycle of vegetation

And

“Consignment complies with Annex IV.A.I, point 46. (b) option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in areas known to be free from *Bemisia tabaci* and other vectors of Bean golden mosaic virus, Cowpea mild mottle virus, lettuce infectious yellows virus, Pepper mild tigre virus, Squash leaf curl virus and other viruses transmitted by *Bemisia tabaci*

Or

“Consignment complies with Annex IV.A.I, point 46. (b) option (b), of EC Plant Health Directive 2000/29/EC”

This declares the place of production has been found free from *Bemisia tabaci* and other vectors of Bean golden mosaic virus, Cowpea mild mottle virus, lettuce infectious yellows virus, Pepper mild tigre virus, Squash leaf curl virus and other viruses transmitted by *Bemisia tabaci* on official inspections carried out at appropriate times

Or

“Consignment complies with Annex IV.A.I, point 46. (b) option (c) of EC Plant Health Directive 2000/29/EC”

This declares the plants have been subjected to an appropriate treatment aimed at eradicating *Bemisia tabaci*

OR

“Consignment complies with Annex IV.A.I, point 46. (b) option (d) of EC Plant Health Directive 2000/29/EC”

The plants originate from plant material (explants) which is free from *Bemisia tabaci* (non-European populations) and which did not show any symptoms of the relevant harmful organisms; are grown *in vitro* in a sterile medium under sterile conditions that preclude the possibility of infestation with *Bemisia tabaci*; and are shipped in transparent containers under sterile conditions.

4. Plants with roots, planted or intended for planting, grown in the open air:

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 33, of EC Plant Health Directive 2000/29/EC”

This declares the place of production is known to be free from *Clavibacter michiganensis* pv. *sepedonicus*, and *Synchytrium endobioticum*

AND

The plants originate from a field known to be free from *Globodera pallida*, and *Globodera rostochiensis*.

5. Plants of the bonsai-type, intended for planting, other than seeds originating in non-European countries

Refer to Section 4.3.1 for bonsai entry conditions

6. Trees and shrubs, intended for planting, other than seeds and plants in tissue culture:

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 39, of EC Plant Health Directive 2000/29/EC”

This declares the plants are clean (i.e. free from plant debris) and free from flowers and fruits,

-have been grown in nurseries, and

-have been inspected at appropriate times and prior to export and found free from symptoms of harmful bacteria, viruses and virus-like organisms, and either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such organisms.

Note: The definition of “nursery” – Premises wholly or partly used for the cultivation or keeping of plants for the purpose of transplantation or removal to other premises (Reference Plant Health (England) Order 2005).

7. **Deciduous trees and shrubs, intended for planting, other than seeds and plants in tissue culture:**

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 40, of EC Plant Health Directive 2000/29/EC”

This declares the plants are dormant and free from leaves

8. **Plants of herbaceous species, intended for planting, other than: bulbs, corms, plants of the family Poaceae (Gramineae), rhizomes, seeds, and tubers, originating in third countries where *Liriomyza sativae* and *Amauromyza maculosa* are known to occur.**

Note: *Liriomyza sativae* and *Amauromyza maculosa* not known to occur in New Zealand

Additional Declarations:

This declares the plants have been grown in nurseries

And

“Consignment complies with Annex IV.A.I, point 32.1, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries

And

This declares the plants originate in an area, established in the country of export by the national plant protection service in that country, as being free from *Liriomyza sativae* and *Amauromyza maculosa* in accordance with relevant International Standards for Phytosanitary Measures

Or

“Consignment complies with Annex IV.A.I, point 32.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries

And

This declares the plants originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from *Liriomyza sativae* and *Amauromyza maculosa* in accordance with relevant International Standards for Phytosanitary Measures, and declared free from *Liriomyza sativae* and *Amauromyza maculosa* on official inspections carried out at least monthly during the three months prior to export

Or

“Consignment complies with Annex IV.A.I, point 32.1, option (c), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries

And

This declares, immediately prior to export, the plants have been subjected to an appropriate treatment against *Liriomyza sativae* and *Amauromyza maculosa* and have been officially inspected and found free from *Liriomyza sativae* and *Amauromyza maculosa*

OR

“Consignment complies with Annex IV.A.I, point 32.1, option (d), of EC Plant Health Directive 2000/29/EC”

The plants originate from plant material (explants) which is free from *Liriomyza sativae* and *Amauromyza maculosa*; are grown in vitro in a sterile medium under sterile conditions that preclude the possibility of infestation with *Liriomyza sativae* and *Amauromyza* and are shipped in transparent containers under sterile conditions

Note: Definition of Herbaceous – plants without woody stems (Definition received from DEFRA 31.03.03)

9. Annual and biennial plants, other than Poaceae (Gramineae), intended for planting, other than seeds:

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 41, of EC Plant Health Directive 2000/29/EC”

This declares the plants

- have been grown in nurseries;
- are free from plant debris, flowers and fruits,
- have been inspected at appropriate times and prior to export, and
- found free from symptoms of harmful bacteria, viruses and virus-like organisms, and
- either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such organisms.

10. Plants of Coniferales:

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 8.1, of EC Plant Health Directive 2000/29/EC”

This declares the plants have been produced in nurseries

And

The place of production is free from *Pissodes* spp. (non-European)

11. Plants of Coniferales over 3 m in height:

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 8.2, of EC Plant Health Directive 2000/29/EC”

This declares the plants have been produced in nurseries

And

The place of production is free from *Scolytidae* spp. (non-European)

12. Plants of Palmae, intended for planting other than seeds, originating in non-European countries.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 37, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in an area known to be free from Palm lethal yellowing mycoplasma and Cadang-Cadang viroid, and no symptoms

have been observed at the place of production or in its immediate vicinity since the beginning of the last complete cycle of vegetation;

In the case of plants in tissue culture:

“Consignment complies with Annex IV.A.I, point 37, option (c), of EC Plant Health Directive 2000/29/EC”

This declares the plants were derived from plants which have met the requirements laid down in (a)

Note: Palm lethal yellowing mycoplasma and Cadang-Cadang viroid are not known to occur in New Zealand

13. **For plants of Palmae intended for planting having a diameter of the stem at the base of over 5cm and belonging to the following genera; *Brahea*, *Butia*, *Chamaerops*, *Jubaea*, *Livistona*, *Phoenix*, *Sabal*, *Syagrus*, *Trachycarpus*, *Trithrinax* and *Washingtonia*:**

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 37.1, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown throughout their life in a country where *Paysandisia archon* is not known to occur

Or

“Consignment complies with Annex IV.A.I, point 37.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown throughout their life in an area free from *Paysandisia archon*, established by the national plant protection organisation in accordance with relevant International Standards for Phytosanitary Measures;

Or

“Consignment complies with Annex IV.A.I, point 37.1, option (c), of EC Plant Health Directive 2000/29/EC”

This declares the plants have, during a period of at least two years prior to export, been grown in a place of production:

- which is registered and supervised by the national plant protection organisation in the country of origin, and
- where the plants were placed in a site with complete physical protection against the introduction of *Paysandisia archon* or with application of appropriate preventive treatments, and
- where, during three official inspections per year carried out at appropriate times, including immediately prior to export, no signs of *Paysandisia archon* have been observed.

14. **For herbaceous perennial plants intended for planting (other than seeds) of the families Caryophyllaceae (except *Dianthus* L.), Compositae (except *Dendranthema* (DC.) Des Moul.), Cruciferae, Leguminosae and Roseaceae (except *Fragaria* L.)**

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 44 of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown in nurseries, and

-are free from plant debris, flowers and fruits, and
-have been inspected at appropriate times prior to export, and
-found free from symptoms of harmful bacteria, viruses, and virus-like organisms

And

- either found free from signs or symptoms of harmful nematodes, insects, mites and fungi, or have been subjected to appropriate treatment to eliminate such organisms.

15. **Plants of herbaceous species, intended for planting, other than; bulbs, corms, plants of the family Poaceae (Gramineae), rhizomes, seeds and tubers; originating in third countries:**

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 32.3, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in an area known to be free from *Liriomyza huidobrensis* and *Liriomyza trifolii*

Note: *Liriomyza huidobrensis* and *Liriomyza trifolii* are known not to occur in New Zealand

16. **Plants of herbaceous species and plants of *Ficus* L. and *Hibiscus* L., intended for planting; other than; bulbs, corms, rhizomes, seeds and tubers; originating in non-European countries:**

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 45.1, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in an area, established in the country of export by the national plant protection service in that country, as being free from *Bemisia tabaci* (non-European populations) in accordance with relevant International Standards for Phytosanitary Measures

Or

“Consignment complies with Annex IV.A.I, point 45.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in a place of production, established in the country of export by the national plant protection service in that country, as being free from *Bemisia tabaci* (non-European populations) in accordance with relevant International Standards for Phytosanitary Measures, and declared free from *Bemisia tabaci* (Non-European populations) on official inspections carried out at least once each three weeks during the nine weeks prior to export

Or

In cases where *Bemisia tabaci* (Non-European populations) has been found at the place of production”

“Consignment complies with Annex IV.A.I, point 45.1, option (c), of EC Plant Health Directive 2000/29/EC”

This declares the plants have undergone an appropriate treatment to ensure freedom from *Bemisia tabaci* (Non-European populations)

And

This declares the place of production has been found free from *Bemisia tabaci* (non-European populations) as a consequence of the implementation of appropriate procedures aiming at eradicating *Bemisia tabaci* (Non-European populations), in both official inspections carried out weekly during the nine weeks prior to export and in monitoring procedures throughout the said period

Or

“Consignment complies with Annex IV.A.I, point 45.1, option (d), of EC Plant Health Directive 2000/29/EC”

The plants originate from plant material (explant) which is free from *Bemisia tabaci*; are grown *in vitro* in a sterile medium under sterile conditions that preclude the possibility of infestation with *Bemisia tabaci*; and are shipped in transparent containers under sterile conditions.

17a. Plants of *Dendranthema*, *Dianthus* L. and *Pelargonium* intended for planting, other than seeds.

Additional Delarations:

“Consignment complies with Annex IV.A.I, point 27.1, option (aa), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in an area free from *Helicoverpa armigera* and *Spodoptera littoralis*, established by the National Plant Protection Organisation in accordance with the relevant ISPM

Or

“Consignment complies with Annex IV.A.I, point 27.1, option (a), of EC Plant Health Directive 2000/29/EC”

This declares no signs of *Helicoverpa armigera*, or *Spodoptera littoralis* have been observed at the place of production since the beginning of the last complete cycle of vegetation

Or

“Consignment complies with Annex IV.A.I, point 27.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have undergone appropriate treatment to protect them from *Helicoverpa armigera*, or *Spodoptera littoralis*

- 17b. Plants of *Dendranthema*, *Dianthus* L. and *Pelargonium*, other than seeds.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 27.2, option (aa), of EC Plant Health Directive 2000/29/EC”

This declares the plants originate in an area free from *Spodoptera eridania*, *Spodoptera frugiperda*, and *Spodoptera litura*, established by the National Plant Protection Organisation in accordance with the relevant ISPM.

Or

“Consignment complies with Annex IV.A.I, point 27.2, option (a), of EC Plant Health Directive 2000/29/EC”

This declares no signs of *Spodoptera eridiana*, *Spodoptera frugiperda* or *Spodoptera litura* have been observed at the place of production since the beginning of the last complete cycle of vegetation

or

“Consignment complies with Annex IV.A.I, point 27.2, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have undergone appropriate treatment to protect them from *Spodoptera eridiana*, *Spodoptera frugiperda* or *Spodoptera litura*.

- 17c. Plants of *Dianthus* L. intended for planting, other than seeds.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 29, of EC Plant Health Directive 2000/29/EC”

(Also refer to Additional Declaration 17a (point 27.1) and 17b (27.2))

This declares the plants have been derived in direct line from mother plants which have been found free from *Erwinia chrysanthemi* pv *dianthicola*, *Pseudomonas caryophylli* and *Phialophora cinerescens* with officially approved tests carried out at least once within the two previous years -no symptoms of the above harmful organisms have been observed on the plants

- 17d. Plants of *Dendranthema*, intended for planting, other than seeds.

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 28, option (a), of EC Plant Health Directive 2000/29/EC”

(Also refer to Additional Declarations 17a (point 27.1) and 17b (27.2))

This declares the plants are no more than third generation stock derived from material which has been found to be free from Chrysanthemum stunt viroid during virological tests, or are directly derived from material of which a representative sample of at least 10 % has been found to be free from Chrysanthemum stunt viroid during an official inspection carried out at the time of flowering

And

“Consignment complies with Annex IV.A.I, point 28, option (b) first indent, of EC Plant Health Directive 2000/29/EC”

This declares the plants or cuttings have come from premises which have been officially inspected at least monthly, during the three months prior to

dispatch and on which no symptoms of *Puccinia horiana* have been known to have observed during that period, and in the immediate vicinity of which no symptoms of *Puccinia horiana* have been known to have occurred during the three months prior to export

Or

“Consignment complies with Annex IV.A.I, point 28, option (b) second indent, of EC Plant Health Directive 2000/29/EC”

The plants or cuttings have undergone appropriate treatment against *Puccinia horiana* Hennings;

And

“Consignment complies with Annex IV.A.I, point 28, option (c), of EC Plant Health Directive 2000/29/EC”

In the case of unrooted cuttings:

This declares no symptoms of *Didymella ligulicola* v. Arx were observed either on the cuttings or on the plants from which the cuttings were derived

Or in case of rooted cuttings:

This declares no symptoms of *Didymella ligulicola* v. Arx were observed either on the cuttings or on the rooting bed.

And

“Consignment complies with Annex IV.A.I, point 28.1, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown throughout their life in a country free from Chrysanthemum stem necrosis virus

Or

“Consignment complies with Annex IV.A.I, point 28.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown throughout their life in an area established by MPI as being free from Chrysanthemum stem necrosis virus

Or

“Consignment complies with Annex IV.A.I, point 28.1, option (c), of EC Plant Health Directive 2000/29/EC”

This declares the plants have been grown throughout their life in a place of production, established as being free from Chrysanthemum stem necrosis virus and verified through official inspections, and, where appropriate, testing

18. Plants of *Castanea* Mill. and *Quercus* L., other than fruit and seeds, originating in non-European countries

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 11.1, of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of *Cronartium* spp. (non-European) have been observed at the place of production or its immediate vicinity since the beginning of the last complete cycle of vegetation

Note: *Cronartium* spp. are not known to occur in NZ.

19. Plants of *Castanea* Mill. and *Quercus* L., intended for planting, other than seeds

Additional Declarations:

“Consignment complies with Annex IV.A.I, point 11.2, option (a), of EC Plant Health Directive 2000/29/EC”

The plants originate in areas known to be free from *Cryphonectria parasitica*;

Note: *Cryphonectria parasitica* is known not to occur in NZ.

20. Live pollen and plants for planting, other than seed, of *Actinidia* spp. originating in third countries

The below declarations declare compliance with the measures required to prevent the introduction into and the spread within the European Union of *Pseudomonas syringae* pv. *actinidiae* Takikawa, Serizawa, Ichikawa, Tsuyumu & Goto (Psa-V).

Additional Declaration:

“Consignment complies with Annex I. Section I, Point 2 (b) and 4 of EC Implementing Decision 2012/756/EU notified under C(2012) 8816”

This declares that the specified plants have been grown throughout their life in a pest free area, established as regards the specified organism by the National Plant Protection Organisation (hereinafter ‘the NPPO’) of the country of origin in accordance with the FAO International Standard for Phytosanitary Measures (hereinafter ‘ISPM’) No 4.

And

Where the information set out in point (2)(b) is given, the name of the pest free area shall be included under the heading ‘Place of Origin’ of the certificate.

Or

“Consignment complies with Annex I. Section I, Point 2 (c) and 3 (a) of EC Implementing Decision 2012/756/EU notified under C(2012) 8816”

This declares that the specified plants have been produced in a pest free place or a pest free site of production, established as regards the specified organism by the NPPO in accordance with the FAO ISPM No 10. The specified plants have been grown in a structure with a degree of isolation and protection from the outside environment that effectively excludes the specified organism. At that place the specified plants have been officially inspected twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export and found free from the specified organism.

That place of production is surrounded by a zone with a radius of at least 500 m, where official inspections were carried out twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export and any plants showing symptoms of infection which were found during those inspections and all adjacent specified plants within the distance of 5 m were immediately destroyed.

And

The specified plants have been directly derived from mother plants grown under conditions compliant with point (2)(b) or 2(c).

Or

“Consignment complies with Annex I. Section I, Point 2 (c) and 3 (b) of EC Implementing Decision 2012/756/EU notified under C(2012) 8816”

This declares that the specified plants have been produced in a pest free place or a pest free site of production, established as regards the specified

organism by the NPPO in accordance with the FAO ISPM No 10. The specified plants have been grown in a structure with a degree of isolation and protection from the outside environment that effectively excludes the specified organism. At that place the specified plants have been officially inspected twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export and found free from the specified organism.

That place of production is surrounded by a zone with a radius of at least 500 m, where official inspections were carried out twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export and any plants showing symptoms of infection which were found during those inspections and all adjacent specified plants within the distance of 5 m were immediately destroyed.

And

The specified plants have been directly derived from mother plants, which were subject to prior individual testing confirming their freedom from the specified organism.

Or

“Consignment complies with Annex I, Section I, Point 2 (c) and 3 (c) of EC Implementing Decision 2012/756/EU notified under C(2012) 8816”

This declares that the specified plants have been produced in a pest free place or a pest free site of production, established as regards the specified organism by the NPPO in accordance with the FAO ISPM No 10. The specified plants have been grown in a structure with a degree of isolation and protection from the outside environment that effectively excludes the specified organism. At that place the specified plants have been officially inspected twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export and found free from the specified organism.

That place of production is surrounded by a zone with a radius of at least 500 m, where official inspections were carried out twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export and any plants showing symptoms of infection which were found during those inspections and all adjacent specified plants within the distance of 5 m were immediately destroyed.

And

The specified plants have been tested according to a sampling scheme able to confirm with 99 % reliability that the level of presence of the specified organism in the specified plants is below 0.1 %.

Or

“Consignment complies with Annex I, Section I, Point 2 (d) and 3 (a) of EC Implementing Decision 2012/756/EU notified under C(2012) 8816”

This declares that the specified plants have been produced in a pest free place of production established as regards the specified organism by the NPPO in accordance with the FAO ISPM No 10.

That place of production is surrounded by a zone with a radius of 4 500 m. Official inspections, sampling and testing have been carried out at that place of production and throughout that zone twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export. The specified organism has not been found during the official inspections, sampling and testing.

And

The specified plants have been directly derived from mother plants grown under conditions compliant with point (2)(b) or 2(c).

Or

“Consignment complies with Annex I, Section I, Point 2 (d) and 3 (b) of EC Implementing Decision 2012/756/EU notified under C(2012) 8816”

This declares that the specified plants have been produced in a pest free place of production established as regards the specified organism by the NPPO in accordance with the FAO ISPM No 10.

That place of production is surrounded by a zone with a radius of 4 500 m. Official inspections, sampling and testing have been carried out at that place of production and throughout that zone twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export. The specified organism has not been found during the official inspections, sampling and testing.

And

The specified plants have been directly derived from mother plants, which were subject to prior individual testing confirming their freedom from the specified organism.

Or

“Consignment complies with Annex I, Section I, Point 2 (d) and 3 (c) of EC Implementing Decision 2012/756/EU notified under C(2012) 8816”

This declares that the specified plants have been produced in a pest free place of production established as regards the specified organism by the NPPO in accordance with the FAO ISPM No 10.

That place of production is surrounded by a zone with a radius of 4 500 m. Official inspections, sampling and testing have been carried out at that place of production and throughout that zone twice at the most appropriate times for detecting symptoms of infection during the last complete cycle of vegetation prior to the export. The specified organism has not been found during the official inspections, sampling and testing.

And

The specified plants have been tested according to a sampling scheme able to confirm with 99 % reliability that the level of presence of the specified organism in the specified plants is below 0.1 %.

4.4 Seeds, Grains and Nuts

4.4.1 Seeds, Grains and Nuts for Sowing

Allium ascalonicum

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium cepa

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium porrum

Leek

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium schoenoprasum

Chives

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Allium spp.

Onion family

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Capsicum spp.

Capsicum/Chilli peppers

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Cruciferae

Crucifers

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex II.A.I, point 18 of EC Plant Health Directive 2000/29/EC”

This declares the seed is free of *Listronotus bonariensis*

Helianthus annuus

Sunflower

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 47, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the seeds originate in areas known to be free from *Plasmopara halstedii*

Or

“Consignment complies with Annex IV.A.I, point 47, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the seeds, other than those seeds that have been produced on varieties resistant to all races of *Plasmopara halstedii* present in the area of production, have been subjected to an appropriate treatment against *Plasmopara halstedii*

Hordeum vulgare

Barley

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Consignment complies with Annex II.A.I, point 18 of EC Plant Health Directive 2000/29/EC”

This declares the seed is free of *Listronotus bonariensis*

Lycopersicon esculentum (syn. Solanum lycopersicum) Tomato

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional declaration:

“Consignment complies with (a) of point 1 of the Annex to Commission Decision 2004/200/EC for Pepino Mosaic Virus”

This declares the seeds originate in areas in which Pepino mosaic virus is known not to occur.

Or

“Consignment complies with (b) of point 1 of the Annex to Commission Decision 2004/200/EC for Pepino Mosaic Virus”

This declares no symptoms of Pepino mosaic virus have been observed on the plants at the place of production during their complete cycle of vegetation.

Or

“Consignment complies with (c) of point 1 of the Annex to Commission Decision 2004/200/EC for Pepino Mosaic Virus”

This declares the seeds have undergone official testing for Pepino mosaic virus, on a representative sample and using appropriate methods, and have been found, in these tests, free from Pepino mosaic virus.

And

“Consignment complies with Annex IV.A.I, point 48 of EC Plant Health Directive 2000/29/EC”

This declares the seeds have been obtained by means of an appropriate acid extraction method or an equivalent method approved in accordance with European Community requirements

And

“Consignment complies with Annex IV.A.I, point 48, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the seeds originate in areas where *Clavibacter michiganensis* spp. *michiganensis*, *Xanthomonas campestris* pv. *vesicatoria* and Potato spindle tuber viroid are not known to occur

Or

“Consignment complies with Annex IV.A.I, point 48, option (b), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of diseases caused by *Clavibacter michiganensis* spp. *michiganensis*, *Xanthomonas campestris* pv. *vesicatoria* and Potato spindle tuber viroid have been observed on the plants at the place of production during their complete cycle of vegetation

Or

“Consignment complies with Annex IV.A.I, point 48, option (c), of EC Plant Health Directive 2000/29/EC”

This declares seeds have been subjected to official testing for at least *Clavibacter michiganensis* spp. *michiganensis*, *Xanthomonas campestris* pv. *vesicatoria* and Potato spindle tuber viroid, on a representative sample and using appropriate methods, and have been found, in these tests, free from those harmful organisms

Medicago sativa

Lucerne (Alfalfa)

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 49.1, option (a), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of *Ditylenchus dipsaci* have been observed at the place of production since the beginning of the last complete cycle of vegetation and that no *Ditylenchus dipsaci* has been revealed by laboratory tests on a representative sample

Or

“Consignment complies with Annex IV.A.I, point 49.1, option (b), of EC Plant Health Directive 2000/29/EC”

This declares fumigation has taken place prior to export

Or

“Consignment complies with Annex IV.A.I, point 49.1, option (c), of EC Plant Health Directive 2000/29/EC”

The seeds have been subjected to an appropriate physical treatment against *Ditylenchus dipsaci* and have been found to be free of this harmful organism after laboratory tests on a representative sample

And

“Consignment complies with Annex IV.A.I, point 49.2, option (a), of EC Plant Health Directive 2000/29/EC”

This declares *Clavibacter michiganensis* ssp. *insidiosus* has not been known to occur on the farm or in the immediate vicinity since the beginning of the past 10 years

And

“Consignment complies with Annex IV.A.I, point 49.2, option (b) first indent, of EC Plant Health Directive 2000/29/EC”

This declares the crop belongs to a variety recognised as being highly resistant to *Clavibacter michiganensis* ssp. *insidiosus*

Or

“Consignment complies with Annex IV.A.I, point 49.2, option (b) second indent, of EC Plant Health Directive 2000/29/EC”

This declares the crop has not yet started its fourth complete cycle of vegetation from sowing when the seed was harvested, and there was not more than one preceding seed harvest from the crop

Or

“Consignment complies with Annex IV.A.I, point 49.2, option (b) third indent, of EC Plant Health Directive 2000/29/EC”

This declares the content of inert matter which has been determined in accordance with the rules applicable for the certification of seed marketed in the Community, does not exceed 0.1 % by weight

And

“Consignment complies with Annex IV.A.I, point 49.2, option (c), of EC Plant Health Directive 2000/29/EC”

This declares no symptoms of *Clavibacter michiganensis* ssp. *insidiosus* have been observed at the place of production or on any *Medicago sativa* crop adjacent to it, during the last complete cycle of vegetation or, where appropriate, the last two cycles of vegetation

And

“Consignment complies with Annex IV.A.I, point 49.2, option (d), of EC Plant Health Directive 2000/29/EC”

This declares the crops has been grown on land on which no previous *Medicago sativa* crop has been present during the last three years prior to sowing

Oryza sativa

Rice

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 50, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the seeds have been officially tested by the appropriate nematological tests and found free from *Aphelenchoides besseyi*

Or

“Consignment complies with Annex IV.A.I, point 50, option (b), of EC Plant Health Directive 2000/29/EC”

This declares the seeds have been subjected to an appropriate hot water treatment or other appropriate treatment against *Aphelenchoides besseyi*

And

“Consignment complies with Annex II.A.I, point 18 of EC Plant Health Directive 2000/29/EC”

This declares the seed is free of *Listronotus bonariensis*

Phaseolus spp.

Bean

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex IV.A.I, point 51, option (b), of EC Plant Health Directive 2000/29/EC”

This declares a representative sample of the seeds has been tested and found free from *Xanthomonas campestris* pv. *phaseoli* in these tests

Pinus spp.

Pine

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required.

Additional Declaration:

“Consignment complies with Annex I. Section I, point 1 of EC Plant Health Directive 2007/433/EC”

This declares the specified seeds and/or cones originate in a place of production which is registered and supervised by MPI

And

“Consignment complies with Annex I. Section I, point 1 (a) of EC Plant Health Directive 2007/433/EC”

This declares the seeds and/or cones have been grown throughout their life in a country where *Fusarium circinatum* (syn *Gibberella circinata*) is not known to occur.

Note: *Fusarium circinatum* (syn *Gibberella circinata*) is known not to occur in New Zealand.

Poaceae (Gramineae)

Grasses

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex II.A.I, point 18 of EC Plant Health Directive 2000/29/EC”

This declares the seed is free of *Listronotus bonariensis*

Prunus spp.

Stonefruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Pseudotsuga menziesii

Douglas Fir

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declarations required.

Additional Declaration:

“Consignment complies with Annex I. Section I, point 1 of EC Plant Health Directive 2007/433/EC”

The specified seeds and/or cones originate in a place of production which is registered and supervised by MPI

And

“Consignment complies with Annex I, Section I, point 1 (a) of EC Plant Health Directive 2007/433/EC”

The seeds and/or cones have been grown throughout their life in a country where *Fusarium circinatum* (syn *Gibberella circinata*) is not known to occur.

Note: *Fusarium circinatum* (syn *Gibberella circinata*) is known not to occur in New Zealand.

Rubus spp.

Berryfruit

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate required.

Trifolium spp.

Clover

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex II.A.I, point 18 of EC Plant Health Directive 2000/29/EC”

This declares the seed is free of *Listronotus bonariensis*

Triticum spp.

Wheat

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex II.A.I, point 18 of EC Plant Health Directive 2000/29/EC”

This declares the seed is free of *Listronotus bonariensis*

Zea mays

Maize

Conditions:

Phytosanitary import permit not required. Phytosanitary certificate and additional declaration required.

Additional Declaration:

“Consignment complies with Annex II.A.I, point 18 of EC Plant Health Directive 2000/29/EC”

This declares the seed is free of *Listronotus bonariensis*

And

“Consignment complies with Annex IV.A.I, point 52, option (a), of EC Plant Health Directive 2000/29/EC”

This declares the seeds originate in areas known to be free from *Erwinia stewartii*

Note: *Erwinia stewartii* is known not to occur in NZ.

4.5 Growing Media and Packing Material

Refer General Information

Appendix 2 – Plant species requiring an additional declaration for *Xylella fastidiosa*

The following plants for planting are required to have the following additional declaration, in addition to other requirements listed in this ICPR.

“New Zealand is free from *Xylella fastidiosa*”

<i>Acacia longifolia</i>	<i>Callicarpa americana</i>	<i>Cyperus esculentus</i>
<i>Acacia saligna</i>	<i>Capsella bursa-pastoris</i>	<i>Cytisus scoparius</i>
<i>Acacia saligna</i>	<i>Carex</i> spp.	<i>Datura wrightii</i>
<i>Acer</i> spp.	<i>Carya illinoensis</i>	<i>Digitaria horizontalis</i>
<i>Aesculus</i> spp.	<i>Cassia tora</i>	<i>Digitaria insularis</i>
<i>Agrostis gigantea</i>	<i>Catharanthus</i>	<i>Digitaria sanguinalis</i>
<i>Albizia julibrissin</i>	<i>Catharanthus</i> spp.	<i>Disphania ambrosioides</i>
<i>Alnus rhombifolia</i>	<i>Celastrus orbiculata</i>	<i>Duranta erecta</i>
<i>Alternanthera tenella</i>	<i>Celtis occidentalis</i>	<i>Echinochloa crus-galli</i>
<i>Amaranthus blitoides</i>	<i>Cenchrus echinatus</i>	<i>Encelia farinosa</i>
<i>Ambrosia acanthicarpa</i>	<i>Cercis canadensis</i>	<i>Eriochloa contracta</i>
<i>Ambrosia artemisiifolia</i>	<i>Cercis occidentalis</i>	<i>Erodium</i> spp.
<i>Ambrosia trifida</i>	<i>Chamaecrista fasciculata</i>	<i>Escallonia montevidensis</i>
<i>Ampelopsis arborea</i>	<i>Chenopodium quinoa</i>	<i>Eucalyptus</i>
<i>Ampelopsis cordata</i>	<i>Chionanthus</i> spp.	<i>camaldulensis</i>
<i>Artemisia douglasiana</i>	<i>Chitalpa tashkinensis</i>	<i>Eucalyptus globulus</i>
<i>Artemisia vulgaris</i> var. <i>heterophylla</i>	<i>Citrus</i> spp.	<i>Eugenia myrtifolia</i>
<i>Avena fatua</i>	<i>Coelorachis cylindrica</i>	<i>Euphorbia hirta</i>
<i>Baccharis halimifolia</i>	<i>Coffea</i> spp.	<i>Fagus crenata</i>
<i>Baccharis pilularis</i>	<i>Commelina benghalensis</i>	<i>Ficus carica</i>
<i>Baccharis salicifolia</i>	<i>Conium maculatum</i>	<i>Fragaria vesca</i>
<i>Bidens pilosa</i>	<i>Convolvulus arvensis</i>	<i>Fraxinus americana</i>
<i>Brachiaria decumbens</i>	<i>Conyza canadensis</i>	<i>Fraxinus dipetala</i>
<i>Brachiaria plantaginea</i>	<i>Cornus florida</i>	<i>Fraxinus latifolia</i>
<i>Brassica</i> spp.	<i>Coronopus didymus</i>	<i>Fraxinus pennsylvanica</i>
<i>Bromus diandrus</i>	<i>Cynodon dactylon</i>	<i>Fuchsia magellanica</i>
	<i>Cyperus eragrostis</i>	<i>Genista monspessulana</i>

Geranium dissectum
Ginkgo biloba
Gleditsia triacanthos
Hedera helix
Helianthus annuus
Hemerocallis spp.
Heteromeles arbutifolia
Hibiscus schizopetalus
Hibiscus syriacus
Hordeum murinum
Hydrangea paniculata
Ilex vomitoria
Ipomoea purpurea
Iva annua
Jacaranda mimosifolia
Juglans spp.
Juniperus ashei
Koeleruteria bipinnata.
Lactuca serriola
Lagerstroemia indica
Lavandula dentata
Ligustrum lucidum
Lippia nodiflora
Liquidambar styraciflua
Liriodendron tulipifera
Lolium perenne
Lonicera japonica
Ludwigia grandiflora
Lupinus aridorum
Lupinus villosus
Magnolia grandiflora
Malva spp.
Marrubium vulgare
Medicago polymorpha
Medicago sativa
Melilotus spp.
Melissa officinalis
Metrosideros spp.
Modiola caroliniana
Montia linearis
Morus spp.

Myrtus communis
Myrtus communis
Nandina domestica
Neptunia lutea
Nerium oleander
Nerium oleander
Nicotiana glauca
Olea europaea
Olea europaea
Origanum majorana
Paspalum dilatatum
Persea americana
Phoenix reclinata
Phoenix roebelenii
Pinus taeda
Pistacia vera
Plantago lanceolata.
Platanus spp.
Pluchea odorata
Poa annua
Polygala myrtifolia
Polygala myrtifolia
Polygonum arenastrum
Polygonum lapathifolium
Polygonum persicaria
Populus fremontii
Portulaca spp.
Prunus avium
Prunus dulcis
Prunus spp.
Pyrus pyrifolia
Quercus spp.
Ranunculus repens
Ratibida columnifera
Rhamnus alaternus
Rhamnus alaternus
Rhus diversiloba
Rosa californica
Rosmarinus officinalis
Rosmarinus officinalis
Rubus spp.

Rumex crispus
Salix spp.
Salsola tragus
Salvia mellifera
Sambucus spp.
Sapindus saponaria
Schinus molle
Senecio vulgaris
Setaria magna
Silybum marianum
Simmondsia chinensis
Sisymbrium irio
Solanum americanum
Solanum elaeagnifolium
Solidago virgaurea
Sonchus spp.
Sorghum spp.
Spartium junceum
Spartium junceum
Spermacoce latifolia
Stellaria media
Tillandsia usneoides
Toxicodendron diversilobum
Trifolium repens
Ulmus americana
Ulmus crassifolia
Umbellularia californica
Urtica dioica
Urtica urens
Vaccinium spp.
Verbena litoralis
Veronica spp.
Vicia faba
Vinca spp.
Vinca spp.
Vitis spp.
Westringia fruticosa
Westringia fruticosa
Xanthium spinosum
Xanthium strumarium
