FOUNDATION FOR ARABLE RESEARCH

One day Sustainable Agriculture and Horticulture Workshops

FAR and the Future Farming Centre are running a series of Sustainable Agriculture and Horticulture Workshops for cropping and horticultural farmers who are interested in introducing more environmentally sustainable strategies onto their farms.

The workshops will be run by Dr Charles Merfield of the Future Farming Centre and will be split into sessions focusing on:

- Soil management
- Pest and disease management
- Weed management

A full programme is available on-line at www.far.org.nz

There is no charge for attendance, but registration is compulsory in order to plan catering.

Please RSVP at least four days before your selected event. Give your name, phone number and the number of people attending (so we know how many lunches to order!). Phone: 03 345 5783, Text: 0275 ARABLE, Fax: 03 341 7061, Email: admin@far.org.nz.

We look forward to seeing you there.

These events are being organised by FAR and the Future Farming Centre, with support from Potatoes NZ, Onions NZ and the Vegetable Research and Innovation Board.
