

2024 Potato Tuber Moth

Potatoes NZ is working to help support growers in their management of Potato Tuber Moth (PTM). As part of this we have a monitoring system in place using pheromone traps to catch PTM within potato crops. As the total number of paddocks drops some results are from individual paddocks rather than an average of an area (Pukekohe, Pukekawa, Tuakau, etc.). Please use this information in combination with in-field crop scouting to help make decisions around crop management.

Tuber moth counts – March 10, 2024

Catch per day							
Average of Catch/day	Column Labels						
Row Labels	Onewhero	Patumahoe	Pukekawa	Pukekohe	Tuakau	Grand Total
